YOUR PROSPECTS FOR THE YEAR AHEAD

May 1st 1952

Dear friend -

Your forecast is based upon your horoscope of birth. As approximate birth hours cannot guarantee exact house cusps and precise planetary positions in a horoscope, the accuracy of the analysis depends on correctness of the time of birth. Your horoscope is interesting due to dynamic relationships of the planets at your birth. You were born with the 28th degree of the sign Scorpio ascending, Mars as ruling planet. You have the Sun with Jupiter in Libra, and the Moon was placed in Capricorn. Your personality is likely to be outstanding due to emphasis of rising planets, as Uranus, Saturn and Venus in Sagittarius fall in the first or personality angle of your chart.

In writing your forecast the current planetary positions or movements of the major planets in the heavens are studied in relation to your horoscope. As there are many transit influences affecting one during a year, only transit aspects having the strongest effect are considered. Do not assume a fatalistic attitude toward these influences. Rather keep in mind that their primary effect is on your own feelings and emotions, and when you experi-

ence certain feelings or emotions you may act in a certain manner, giving rise to a natural pattern of events or developments. In other words it is your own reaction to planetary law or influence that is the basic cause of events or developments in life. Intelligent handling of emotions or of the influences prevailing in your chart can enable you to consciously avoid negative conditions or consequences rising from unwise action. Also when favorable influences prevail you can be more prepared to take advantage of opportunity.

Your Progressions

Outside of the transit planetary positions and aspects it is essential to study the progressed positions in your chart to assure complete guidance. By using the method of a "day for a year" it is apparent that the Sun has "progressed" in your horoscope to 22.27 Sagittarius for your present year (May 1952) of life. This places it in favorable relationship (sextile) with your Jupiter. Following this fortunate indication the Sun will move on (by 1954 or generally affecting 1953-55) to an opposition of Neptune in your horoscope.

The present solar aspect to your Jupiter (affecting 1951 to 1953) is fortunate for general prosperity and advancement of your interests. This marks a period when things can work out to your personal advantage or you realize important hopes. There is stronger emphasis on travel, legal and financial affairs, advertising or publication. Or important friendships, ties and relationships can be made. Progressed Mars...in "orb" of an aspect with your Venus during the year could also be effective generally in regard to emotional or romantic interests. While Venus by progression is in orb of the conjunction with

Uranus in your chart---suggesting strange or unusual attractions, sudden or unexpected developments and decisions affecting personal life, romantic or love relationships, etc. In general things happen unexpectedly and with Venus over or near Uranus you are popular with progressive people or people younger than yourself. You must, however, keep in mind that the influence can also create sudden changes or new conditions in these affairs.

In respect to the progressed Moon or lunar aspects the movement of the Moon from 28 degrees Sagittarius in April 1952 to $15\frac{1}{2}$ degrees of Cancer in June 1953 is interesting. Aspects this year shown by the Moon are favorable. March and April 1952 with the progressed Moon sextile the Sun suggests a period of happiness and success, of the realization of hopes, influential friendships or emotional fulfillment.

The period centering around May 1952 keeps you mentally active, intellectually stimulated and creative. There is a stronger urge for travel, or benefit is possible in terms of business, writings and personal expression.

June 1952 begins a Lunar movement through the 2nd or financial angle of your horoscope, which may cause you in the two or more years ahead to be more deeply concerned or interested in financial affairs. You should concentrate on opportunities to make money. Study your prospects especially during and around such months as July, August, November-December 1952 and June 1953.

June 1953 is the centre of a very important lunar progressed aspect...as the Moon then reaches in your chart the place (15.06 Capricorn) it occupied when you were born. This has happened but once before...around your 28th year. It ends an important cycle in your life and begins a new cycle...resulting in changes or new conditions

and high motive in your own life. Otherwise this is a period in which the mistakes of the past could become evident, or in which things become more confused or uncertain or go "haywire". To have others deceive us we must first deceive ourselves...and its wise to keep this in mind now and for some time to come. It is, however, very difficult to analyze possibilities when a Neptune vibration is involved. Much depends on the individual's inner motives and aims in life. Considering you were born with Sun conjunction Jupiter, trine Neptune, it is apparent you have a high sense of values and deep intuitive insight. You are naturally philosophical and generally fortunate. You can be subtle or you employ indirect methods in influencing others. You benefit by assuring a good sense of humor and in making allowances for the weaknesses of others. The major "spot" where Neptune can blind you, however, is in your own domestic life (Pisces - ruled by Neptune on your 4th house cusp - the home), and in your associations, partnership, marriage and legal affairs (Neptune was in Gemini in your 7th house of public relationships at your birth). So long as you are realistic you will handle the trend of the next few years wisely. You are basically a fortunate person, generally landing on your feet economically, or you make highly fortunate associations and friendships with influential people. You possess a deep and wide sympathy or understanding for fellow-man. Your hunches or intuitions should normally prove reliable...in fact extraordinarily so at times. Experience of a wide and universal kind has taught you a great deal in life, as your major "problem" has been to develop the immense resources of your personality, and to overcome personal limitations or restrictions. You have wide understanding, inspiration and imagination which you employ creatively. Most of

this is based on the fact that you were born with Sun and Jupiter trine Neptune, and with Uranus rising or close to your ascendant with Saturn. Hence use these natural talents during the next few years when the Sun opposes your natal Neptune, and transit Neptune is over your Sun, to keep things realistically organized or practical.

Your Long-Range Transits

While the "progressions" discussed above deal with factors influencing your "destiny-pattern", the ephemeral movements of the major planets over positions (or by aspect) in your birth chart are less decisive...but just same prove highly important.

During 1952 and 1953 Neptune moves thru the sign Libra and over the place of Jupiter in your chart, also reaching what is termed a trine of its own place. This becomes apparent in or about October-November 1952 and continues thru 1953. The pattern of your social life is undergoing change, or you may attract a different type of friend. You place emphasis on associations relating to spiritual, religious, philosophical, artistic or musical attachments. Unusual events determine the working out of your hopes, ambitions or general wishes, and affairs connected with financial rewards of profession. You emphasize idealism in associations and relationships, or make ties that are based upon spiritual concepts rather than physical needs or interests. You will, however, need to be very practical, as it will be difficult at times to ascertain the integrity or reliability or lasting devotion of people you attract. This is so as the Neptunian factor conditions your own emotional-mental approach to things...or you see things in a rather "idealized" vision.

Nevertheless, Neptune over your Jupiter may correspond with your almost spectacular rise in life. This can be so when you concentrate most on foresight in affairs, creativeness and inspiration. If you are in a creative profession, especially one relating to the theatre or movies, publicity, advertising, etc., there is a possibility of increasing financial rewards here...due to greater expression of talent or genius. But you must be practical in financial matters, steering clear of promotional ventures or highly attractive schemes which can at times be too visionary. This is necessary as transit Saturn joins Neptune in the rare conjunction of these planets...exactly over the place of your Jupiter by and around November 1952 and also in and around May to August 1953. This represents what may be termed one of the most unusual aspects you could experience. It could bring about some highly complex problems or peculiar events and developments in late 1952 to late in 1953 in all...in which you must separate fact from fancy, the truth from untruth, etc. Keep your mind absorbed in creative work, your business affairs and financial interests as practical as possible. Use inspiration as you can accomplish a great deal here. Your responsibilities are increasing...due to Saturn in Libra or your solar sign...up to October 1953. Lay the foundations on a realistic plane of possible future work of talent or genius, organizing your thinking or thought by stressing self-discipline during 1952-53. The present period into 1953 can be one of harder work or rising ambition, of the rise of more of the secret or confidential in your life. You need a sound, sure or realistic aim or objective on which to centre your efforts, and thru which to make the fruit of your creative imagination material reality. If in a creative field it is possible you become more strongly associated with

new fields of expression such as the movies or television...due to the Neptune trend in your chart. When you resist emotional distractions or any inclination to live glamorously, hence devoting energy to creative purpose, you accomplish a great deal as it would appear you seem to be impelled forward by an "unseen" force. This is, however, a complex cycle due to the powerful influences affecting your star pattern.

Uranus in Cancer makes an aspect during the year...centering around July 1952, December 1952 or January 1953 to about May or June, which calls for study. You have your Moon in 15 degrees Capricorn, and this is opposed by the Uranus transit in Cancer or the opposite sign. It seems wise to suggest that you use discrimination in and along money lines, as conditions can arise suddenly or unexpectedly which result in problems. Avoid taking chances or risks financially in periods mentioned. Sudden developments may stem from activities of others, affairs of partners or in respect to partnership financial interests. In a general sense for some years to come keep this tendency in mind or assure sound foundations in money interests linking your affairs with others. Particularly so to some extent in the last half of 1953, and especially during 1954 to 1955 or so. But the present Uranus stimulus can prove at times a bit disturbing or upsetting in terms of your relationship with the opposite sex, or in your home life. Circumstances could arise which compel changes or new developments in environment, travel or removals. Or in a general sense since about late 1951 you have made sudden or unusual contacts or decisions involving the opposite sex. Or this influence (in its wide pattern...and not its exact aspect) thru the year brings people of the opposite sex into your life, who have a strange or unusual influence,

and who may leave or depart from your life as quickly as they enter it. Your association with the opposite sex, however, can be interesting, eventful or surprising and changeful in the current year.

We have mentioned the effects of transit Saturn in Libra (to October 1953) in connection with Neptune. By itself a transit of Saturn in one's solar sign usually works to increase ambition along materialistic or practical and realistic lines. However, this is inextricably mixed with the subtle effect of Neptune for months to come, and suggests this is a highly complex period in your life. At best it may suggest you can make your highest spiritual desires more practical, or bring your dreams to earth or to physical expression. Or you may have to decide between your creative impulses or desires and the demands of your world. Saturn gives us burdens or responsibilities as well as problems to solve. It is wise therefore you keep affairs balanced, by avoiding taking on more than you can do. Particularly if contacts tend to push you. Build up your resources and protect your health generally from too heavy work, tension, worry or anxiety. A certain amount of security is what you need, want or seek in time ahead. You gain by mastering the material factors of life. You could travel...tho largely to some place familiar to you or where you have been in during the past. Organize your thinking as it is possible you might have to make decisions between the old and the new...in the sense that old factors may hold you by assuring possible security...while new interests or progressive developments may point the way to general future opportunities. Hence this is one of the reasons for not obligating yourself unwisely, or in keeping a certain freedom of decision. But do endeavor to profit by what you have built up in the past...bringing your major hopes or interests

into tangible form. Keep your feet on solid earth and you do not go wrong. In fact this cycle could mean possible outstanding success.

Jupiter is now in the sign Taurus until May of 1953 when it will enter the sign Gemini. It transits the fifth and sixth houses of your chart to May 1953, then entering your seventh house. Its transits in the last year (1951 into 1952) and particularly since March into April, or this two-month period in 1952, has been highly important for you. Perhaps March 1952 (with Jupiter opposite its own place and applying to the opposition of your Sun⁴¹ in Libra) did much to stimulate and increase your social life, or to assure an unusual attachment or romantic event, favoring opportunity for pleasure, recreation or entertainment and general happiness. Contacts with other people thru business or travel would have increased.

In Taurus, however, Jupiter moves thru an "obscure" sector of your chart and suggests during the year ability to advance service or employment interests, and for improvement in health by attention to health factors such as diet or medical treatment if necessary. Pay attention to opportunities in and around July 8th, November 14th 1952, February 25th 1953, and around April 22nd 1953. During your July, November and February dates assure progress and harmony in personal life, relationships with the opposite sex, public interests, or push travel and financial affairs.

Some profound change or new development in your life, affairs and interests is a possibility in and following May 1953, when Jupiter enters your seventh or partnership angle. Stress cooperation, mutual interests, adjustments and progressive moves. The year following can be expansive in associations or in development of plans and activities that tie you in with others.

INTERPRETATION OF YOUR COMPARISON GUIDE

Your comparison guide chart shows all the signs, and the birth dates covered by each. Yours is marked with an "X". The purpose of the chart is to show how your sign compares with the others astrologically.

All those checked are essentially friendly to your sign. Signs with double checks have a general emotional attraction, but may contain the germ of jealousy, because of this emotionalism. If you study the chart carefully, and the dates covered by each sign, you will be able to understand your friends much better; and you will know how to treat them in order to achieve more friendliness.

Although the signs which show no checks are astrologically "clashing" with yours, it does not follow that you cannot be true friends. But it does mean that a break of friendship would come sooner under given conditions than if the signs were astrologically blended with yours.

For purposes of marriage or other close relationships (like a business partnership) it is best to compare the entire charts, yours and the other party's, planet for planet, for it sometimes happen that a strong cluster of planets in any one sign could offset the effects of the birth sign itself...and it is only in close daily contacts that you would be apt to find that out.

The chart is of additional help to you if you are a student of Astrology or intend to become one; for it shows what each sign means and gives much valuable information about them. One who knows these things will always be able to understand his own horoscope chart better.

YOUR PERSONAL MONTHLY GUIDES

This analysis is based upon planetary transits or the aspects made by the major planets in your chart, as they culminate from month-to-month, and also in respect to minor influences, and the effects of the New Moons when important in your horoscope.

May 1952

This can prove a period of constructive mental advancement or active intellectual stimulation. Endeavor to assure success in affairs connected with travel, writing, publishings, advertising or business generally. The month period opening about the 23rd can be somewhat unusual. The emphasis is on your relations with other people or in affairs connected with the public, your partnership or marriage affairs. Surprises are a possibility this month (from the 23rd of May). Hence keep in a flexible position to assure balance if things arise swiftly or without notice. Don't depend too much on things remaining as they are or have been...other people may have other ideas. Hence there is necessity for you to make shifts in policy or changes in plans. Don't be too hasty starting things here as new ventures may not work out just the way you plan them. However, this helps clear your path of factors which congest your life to some extent.

June 1952

Only minor indications are apparent here. Some pleasant tendencies are possible about the 15th, 17th and 20th, which harmonize relations with other people or help attract tranquility. Tact and diplomacy can smooth your way. This is unlikely to be a highly important month for you due to the fact no stimulating influences pre-

vail...but in a general sence June from the 12th to 21st is usually good for you, or a time when your interests prove more active or favorable. Push affairs and get ready for important developments.

July 1952

The period around the 7th, and generally thru July into August is important. Study your relationship with the opposite sex or affairs connected with women. There is a possibility of surprises or sudden, unexpected and unusual developments connected with the opposite sex or partner. During this period you might find the partner (or most important woman in your life) under somewhat of a nervous tension or pressure, or women prove restless and excitable. Domestic life could be a bit disturbed due to sudden changes and new conditions, travel, etc. Do nothing here (and in the long-range sense up to mid-1953) which can upset public reputation or influence popularity with the public. Be tactful in all affairs connected with the public or study effects of publicity on personal affairs. Pay attention here into August to money matters. There can be both favorable and unfavorable prospects...strike a balance. That is build up resources but resist risk or speculation. There are too many unknown factors involved or the prospect of sudden change in affairs to support risk or speculation right here. But the main idea is to be prepared for shifts, changes or variation of mood, feeling or emotion stemming from women, the public generally, or the woman most important in your life. Unless so prepared you might encounter changes or upsets, separations or new condition...or this month could open a trend which continues in respect to the above for about the year following. Nevertheless there is a friendly trend apparent also which supports your interests.

August 1952

You receive generally favorable stimulus from the eclipse trend of August, with the Full Moon of the 5th and New Moon of the 20th, emphasizing activity along intellectual lines, writing, speaking, correspondence, advertising, publicity or travel. Time important moves or decisions following the 20th. The important solar eclipse of the 20th favors you, or can indicate a certain change in your interests or a turning point at this time or in the year ahead. Push affairs calling for vision or far-sightedness and good judgment, as the period generally favors education or scholarly interests, distant activities or travel, etc. Around the 20th you can see ahead to new possibilities or may incline to push new ventures. The 23rd opens a period of increased activity, ambition or vitality, and may find you more confident and impatient for results. Avoid over-doing things or too strong an expression of personality. Particularly as the period around the 30th can prove dynamic, or changes are in the air. Temperament could be somewhat explosive if things irritate you...hence proceed cautiously to avoid mistakes due to nervous tension. A time to stress conservatism and to eliminate possible accidents or upsets along personal lines and in regard to human relationships. May tend to increase originality and independence.

September 1952

Pay attention to matters connected with prestige, position and reputation, public relationships and finances, especially during the 8th to 29th and centering around the 17th. Progress demands work or responsibility, or causes some concern and emotional worry this

Page 15

solidate what you have built up or coast along for a time, without over-extending self or resources. Some pressure is possible on money interests this month. Pay attention also to the outlook of women in your environment or work for harmony in understanding. Not the time to push affairs which might depend on popularity. Watch general health and emotional interests around the 11th-12th. This is the time to slow down and to solidify present interests or to keep to routine. Tho it may also make you more conscious of your affectional needs or emotional interests. The 20th could also be active, but suggests conflicting interests involving others. Develop opportunities as they arise.

October 1952

Your birth month! You come under significant influences here. The trend revealing itself in October 1952 is apt to be with you for a long time. Keep alert to your possibilities starting important moves or developments from the 18th. This can be a rather expansive month, when things may take important up-turn. It broadens your interests or widens your scope for action along individual lines, social life or friendship, education, publishing, etc. Make the most

of the month from the 18th. Maintain balance between the visionary and the practical, using imagination along with sound facts here and thru the year ahead. At best you absorb knowledge more quickly and can use it along unusual lines, or extra-sensory perception stimulates insight into possibilities or the future. In general this should be the start of a rather unusual year in your life.

November 1952

During November the very rare conjunction combination of Saturn

gard to cooperation and promotional affairs, or general relationships. This is due to the New Moon of the 17th falling opposite Neptune in your chart...a period as a rule when a good deal goes on behind the scenes or when other people do things for reasons other than they state.

You are mentally active or alert this month especially around the 27th, when mental initiativeness or aggressiveness keeps you in advance of things.

January 1953

During January (the culminating exactly on and around February 11th and for the last time May 1st 1953) it seems wise to keep your financial interests well adjusted, to resist upsets due to surprises, sudden changes, new conditions, broken agreements or problems. This can also reflect on your private life and affect close or intimate

to do. Hence don't act prematurely on proposals. Stress emotional calm and practical decision, using main care in affairs connected with income. Your success and progress from here on depend on the establishment of a mature and philosophical attitude to your possibilities, a calm or realistic acceptance of responsibility.

February 1953

Outside of the long-range trend which is exact around the 11th more friendly or harmonious vibrations are apparent this month. Encourage affairs connected with mental work or intellectual expression, general travel, education and literary matters. Particularly from the 15th. Build up your interests by practical work from the 18th to March 4th, refusing to allow others to tear down what you construct. There is a possibility of considerable luck or for compensations in your affairs. As the month ends or about the 27th-28th stress patience or reserve, or refuse to take things too seriously if forcing issues can lead to breaks or upsets. Not the time to allow the emotions to control conditions.

March 1953

If you permit things to get out of hand March can prove a bit too active, turbulent, exciting or stimulating. Take it easy in social life and in affairs connected with pleasure and expression of affection. There could be a certain amount of friction or misunderstanding arising here, or temper might dominate affairs resulting in excessive demonstration of feeling. The 9th can find you arousing enthusiasm in others, or things look very opportune, and confidence needs control mainly if you feel too generous or expansive. The week centering around the 17th or the 14th-17th finds you more emotional.

Life speeds up in one way or another and more is going on...as the trend of the minor transits at this time more or less culminates the effect of more important factors influencing your chart...making this a month of possible climax. Handle things tactfully, smoothing relationships with others or avoiding problems by your natural Libra tact. Not the time to rush into ventures in business or investment without real forethought, as little comes of using the initiative here. The 11th and 14th can prove important dates also...or close to these dates, in respect to the way you feel about things. Make certain reason governs emotion. Move ahead slowly or avoid showing your feelings. The 19th suggests quick decisions or impulsive expression and precipitant reactions to affairs. There is a good deal of energy apparent in the trend revealed this month, which needs sound control and positive direction. Don't let things get out of hand. Pay attention to personal health and emotional balance for happiness.

April 1953

Things should prove quieter this month, but generally due to the New Moon of the 13th activating the Neptune trend in your chart, it seems wise to keep confidence balanced. Other people may make proposals in the month from the 13th which appear favorable or attractive, or personal confidence and enthusiasm increases. If so examine the basic nature of things or get to the root of matters, and be willing to stand on your record or your past performance in business or profession, rather than on the possible doubtful support of others. You might contact people of different opinion or philosophical attitude, and need to analyze differences previous to accepting offers. Study the views of others. Activity could increase socially or in

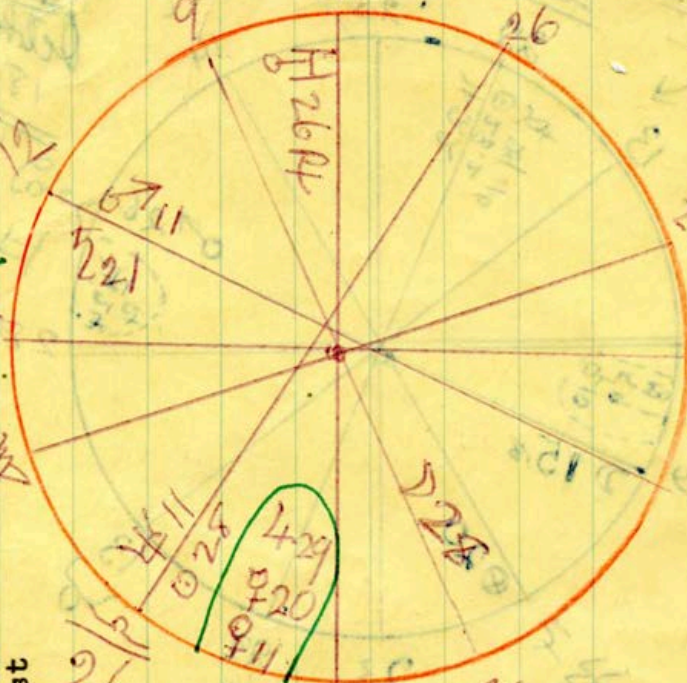

affairs relating to pleasure, entertainment, recreation and your affections. Maintain your spiritual-philosophical roots in established concepts or known truths and values, paying attention to the material factors of life...or assuring balance between important intangibles and the tangible affairs of life.

With Jupiter ending its Taurus transit in April-May its position in and around the 30th or the month generally into May, could mean some profound development or change in affairs. Confidence can increase in public-relationships, legal matters, marriage or partnership here or thru the year following. You may find other people more expansive or perhaps extravagant tendencies develop in respect to partners.

May 1953

Stimulating activity centres around partnership matters or relationships. Other people prove impatient, hasty or impulsive, particularly so about the 3rd, 15th and 23rd. Stress cooperation, but go slow pushing affairs connected with public expression or concerning your relationship with others. Otherwise upsets are a possibility as the trend (about the 3rd mainly and to some extent by the 15th) is explosive or the unexpected is possible. Around mid-month you are likely to come into contact with differences of opinion or outlook, or you will be expressing your progressive ideas to others. A certain amount of excitement arises, or at best life and affairs proves more interesting. Prepare for developments thru June, as June around the 12th or following this date can bring things into the open. Avoid general business and legal risks as things may work out differently than planned. Stress your natural art of diplomacy. You could come to view things differently than in the past here or in the next few

(and will remain there until 1970)

Capricorn is now my progressed Ascendant. This brings many enemies, treacherous friends and relative so the best and safest policy is 1 - lie low; 2 - remain ever behind scenes; 3 - Stick to pen-names; 4 - renounce all ambitions; 5 - Be humble, content with little, and live in solitude of countryside; 6 - refuse all posts of responsibility. *Indep*

THE HOROSCOPE OF P.B.

Uranus rising would give you an uncommon and bohemian life with tremendous vicissitudes. You will display certain inventive genius and will be inclined to strike out new lines entirely for yourself, in which something of the occult has its part. You will experience many strange and peculiar events. You will be very sensitive mentally, rather highly strung, and sometimes too irritable. You will have a tremendous love for all that is wonderful and profound. You will investigate the occult.

Venus rising will give you refinement and something of a cheerful disposition. You will appreciate art, have some taste for music. You would have friends who are very artistic. Your feelings and affections will be very active.

Saturn rising, will give you a very serious thoughtful disposition. Your early life up to the early thirties will be much of a struggle. The environment into which you were born will restrict you in many ways and will not be altogether favourable for your progress, but with Uranus rising you will probably break down such limitations and strike out new paths for yourself.

You will have many obstacles to contend with in life, which will test your patience and endurance. You will be industrious and plodding, yet at times very abrupt and unconventional and will be considered serious, strange, peculiar and eccentric.

Personally you are ambitious, but your ambitions will lie in strange directions. You will seem to strike out for objects that are not to be attained at present and will look ahead into the future. You have the ability to acquire and can bargain, but with Venus rising you could never be mean. Individually, you are between the influence of Libra and Scorpio. This will give you a strong sense of justice, and a large faculty of comparison. You will be fond of harmony and order. You will always be courteous and obliging, except when roused to anger, then you could be very abrupt and could hurt others by your manner.

You will feel surroundings very keenly for your nature is very sensitive. You have strong likes and dislikes and you can show a very intense, positive and decided nature. You have good perception and the ability to judge keenly. You have a fund of strong silent power, but generally speaking you desire to be harmonious, but occasionally it takes you all your time

to refrain from being passionate. You could be very sarcastic when vexed. You have much determination, tenacity and secretiveness, and a great desire for investigation. You are capable of giving an all-round dispassionate judgment, but occasionally you will be very exacting. You love harmony beauty and peace.

The ruler Jupiter was in Libra and with the Sun which if correct, is bound to bring you success sooner or later. It will endow you with balance and optimism, so that, although Saturn rising will give you times of depression and many difficulties, yet with Sun conjunction Jupiter in Libra you will be able to see the justice of life more so than most people and will look forward with hope. It will strengthen your constructive ability and will also give you much vitality. This conjunction will strengthen your moral tone.

You have three trines to the planet Neptune which indicates a great love of the mystical and also suggests that you are one who has previous to this life developed much inner power. You should be able to renounce in this life for you will have learnt to some extent the lesson of renunciation in previous lives. Anyway, you must have had close touch with mystical knowledge, and therefore these things will seem to come to you naturally. You will learn much through the paradoxes of life and these will have a special meaning and reality for you.

The Sun square Mars will give you some struggle between your will and desire-nature which will show itself at times through passion and temper, and at such times your passions will for the moment dominate you, but you can soon regain balance. It will give a liability to accidents. It makes: Wasteful and prodigal, not calculating for the morrow. Losses - excesses Boastfulness. Does not know where to 'draw the line.' Easily lets 'the cat out of the bag.' Does not practise the maxim "discretion is the better part of valour."

You have much temper and have to exercise a good deal of careful control, otherwise you would be very impulsive in speech. You are energetic mentally and always active. You have a certain philosophy which strives against the passionate side of your nature and keeps it in check. Your mind goes out strongly to all that is mysterious and uncommon.

(3)

You are occasionally liable to extremes. Therefore, if you were really annoyed, you could be extremely bitter and only your philosophical spirit and your love of harmony could save you from being vindictive. You have much courage, but at times will prove a little too reckless.

Your most successful period of life will be from 46 to about 58 years of age when you should have much success.

Your chief lessons in this life are - Balance and Self-Mastery, also Hope and Patience.

Neptune in Gemini, dreamy mind. Lives in Illusions. Hard facts not realized or discounted.

1. Wonderful intuition. 2. You can bring things through from past lives in the form of intuition. 3. Your friends will be your greatest asset in life. 4. Your combinations of planets are peculiar and give an outpouring of force. 5. There is a good deal of the prophet in you. 6. Death will come unexpectedly and in a public way. 7. Danger in travelling on water.

Uranus afflicted by moon: Will meet your marriage partner while travelling or on a journey OR Love affair with person not of your nationality. This position brings romantic and disastrous adventures with persons who are acquaintances or strangers. Be on guard against Uranus people for treachery or secret deceit. (Avoid eccentrics and have no dealings with those who are not straightforward. Exile from country, or from relatives and friends. Annoyances from Uranus people. Nervous troubles through psychic matters.

Venus rising at Birth will keep you from real poverty and will from some source always bring you benefit, but being with Saturn, ruler of your finance, you can depend upon having many things to contend with. Your finances will not be of the best and will only come through plenty of exertion, prudence, and plodding qualities. You could benefit through some sound investment. The Moon being in the 2nd will fluctuate the finances and cause you many changes. Eventually, however, you should have success socially and financially, with Sun conjoined to Jupiter, and certainly by about 47 years of age. Jupiter trine Neptune will cause you to gain very uncommonly and it may be through some uncommon line or uncommon partnership or by will or legacy.

Venus rising in Sagittarius will give you at least two opportunities for marriage, but being with Saturn some disappointment or cause much thought and delay. Troubles through your relations with the opposite sex. Beware of passions uncontrolled. Poor business judgment and hence liable to losses and failure. Causes laziness. $\text{F} \circ \text{♀}$

→ Avoid gambling and drinking, and never act through impulse. Quick wit and sharp tongue with biting sarcasm. Bold and stubborn. Extremely resourceful and able to overcome difficulties that would crush others. Magnetically attracted to the occult. Good magnetic healer. Success in occult science and will develop supernormal faculty. $\text{♀} \text{ in } \text{M}$ $\text{♀} \text{ in } \text{D}$ $\text{♀} \text{ in } \text{P}$

→ Quickwitted, sharp and alert; impulsive and excitable. Beware of acting BEFORE you think, or you will get into trouble. Do not colour or exaggerate any statement. Avoid bluster and egotism. $\text{♁} \text{ in } \text{D}$

Gives abundant energy and faculty for leadership. But what should be courage becomes foolhardiness; avoid an overbearing swaggering manner. Liability to accident which may maim, or to gunshot or knife wound.

→ Uncertain temper, desire to rule in the home, causes tendency to keep changing occupations and drop them again suddenly, also tendency to worry and overwork. Domestic troubles and quarrels; frequent change of address, accidents at home by fire through recklessness or carelessness. Cheerful optimistic disposition; looks on bright side of things and keeps up the spirit in adversity. Able to reason correctly and to form a reliable judgment by careful deliberation. Does not give a hasty decision, but requires time to think over what is presented to you; but once reached your decision is incontrovertible. $\text{♀} \text{ in } \text{D}$

Successful in law or literature; respected for your honesty and sincerity. Will benefit by a migratory mode of life, so it is good for you if you travel for business or pleasure. Makes you healthy wealthy and wise and loved by others for the vital vibrations you radiate upon whoever you meet.

→ Liable to slander, even if unmerited. Afflicts digestion. Do not eat too quickly, or drink too fast. $\text{♀} \text{ in } \text{B}$ $\text{♀} \text{ in } \text{D}$

→ Trouble through lack of forethought, litigation, indecision or dishonesty. Guard against liver trouble. Develops spiritual faculties and intensifies the spiritual vibrations in the aura. If you live the life you can obtain first-hand knowledge as you love the occult. $\text{♀} \text{ in } \text{D}$

(5) Vacillating and unsettled disposition. Unable to pursue settled course in life. Rash to plunge into untried ventures but lacking the persistence or continuity of purpose to carry anything to a successful conclusion. For that reason liable to become a failure in life; dealings with those higher in social scale or in authority are especially unsuccessful.

An inspirational, mystical nature and success in an occupation or position connected with an occult fraternity. Brings out all the noblest and most spiritual strength of both planets and gives occult experiences. During sleeping hours you are conscious in the invisible worlds, and bring experiences back with you as dreams or visions. # Δ Δ

Indicates unusual mental faculties, owing to good aspects. Makes you occult, prophetic and inspirational and sensitive to the finer intuitional and inspirational vibrations of life. Shows genius. Gives the gift of oratory and unusual literary ability. You can excel in any field of endeavour where mental ingenuity is required. # m II

Pride, liberality, extravagance, conceit, ostentation, success through superiors and the favours of persons in authority. 400

Adaptable, aspiring, intellectual, studious, reliable. Deceptive, cunning, mercenary, perverse, sensual, callous, rude, greedy

Wild and unfortunate enterprises bringing loss. Avoid rash conduct.

Masterful, proud, wilful, obstinate, hard, unfeeling, severe, irritable, exacting, indelicate, losses thru strong opposition and indiscreet speech also thru impolite and unsympathetic manner.

Proud, cynical, insolent, unfaithful, loss thru giving way to passions.

m 7 Enthusiastic, free, over-generous, rebellious, turbulent.

Scorpio is rising on the Ascendant and with Uranus in first gives: forceful determined will to overcome all obstacles; sharp, shrewd and secretive mind; good at details and concentrating on problem in hand. Very vivid imagination. Originality, genius, intuition.

017 You would do well not to look for popularity as it will tend to react on you. Exercise caution and diplomacy in dealing with those in authority.

(6) $\odot \Delta \frac{1}{4}$ You will be lucky (though you may not think so). Will be much liked by others as a rule. Beware lest the sensuous side of life dominates.

$\rightarrow \odot \rightarrow$ Never rush out into action too quickly, nor say more than you really mean, as you will find yourself given to exaggeration and to enlarging upon your circumstances. You say and do things you are sure later to regret, through strong likes or dislikes coming on quickly. Avoid recklessness and passionate extremes. Practise self control. This aspect brings misfortunes thru rash impulses.

$\Delta \odot$ An energetic and ambitious disposition, with an original, alert and ingenious mind which is resourceful to the highest degree and able to cope with great difficulties under trying circumstances. Inventive. A pioneer of the Aquarian age. A dreamer of dreams but also practical energetic and enterprising in a sufficient degree to make your dreams come true in the world. A wide vision and noble nature which rises over all petty distinctions of race, creed or colour and recognizes the divine spark in all human beings as the basis of universal brotherhood. Cosmic in ideas, hence often mistaken for visionary by those who do not understand you. Pioneer work of an occult (8th) and mystical (12th) nature, partly connected with the public (Cancer) and entailing organization and practicality (Mars), and partly prophetic, looking forward to some future happening (Sagittarius).

Success in connection with occult practice or mystical order. Friends and associations which favour the occult. Your genius in this connection will come to the fore and will find some measure of recognition, by pioneer work of this nature. You have a strong grasp of the spiritual problems of the day, with a philanthropic desire to work for the upliftment of humanity. Through a long journey abroad you obtain spiritual knowledge. Your original ideas combined with an ambitious and enterprising disposition will bring some success and reknown.

$\frac{1}{2}$ on $\frac{8}{17}$ is evil for the eyesight. Trouble threatens it.

According to the disposition of Neptune, which is best aspected planet, my greatest success would come from the West or slightly Southwest, and being in II obviously United States of America is indicated. It would be well to take up one's residence there.

(7) You will be fond of the ancient and antique. You have much intuition, are very shrewd and far-seeing.

Mentally you have a sense of justice, but are very positive and decided, subtle and possessed of magnetic power. You have decided ideas and would go to tremendous lengths to carry out such ideas.

$H \Delta \rightarrow$ gives mental and physical energy, stimulates original thoughts, gives confidence and self-reliance; genius in some direction. Uranus being in 12th indicates pursuits carried on privately psychic experience.

$\Delta < H$ attracts to Uranus occupations and persons but brings trouble through them, bad for domestic life and children.

$\oplus \Delta 4; \ominus \Delta 4; \Delta \Delta 4$ brings money, gifts, rewards, patronage, and professional success, especially through Jupiter and Sun people.

$\text{♀} \circ \text{♀}$ indicates a single life, disappointment and losses by female connections

♃ in bad aspects unpopularity or ill fame, Mars being elevated over the Moon in 2nd, you lose most of your money thru first marriage partner but Jupiter con Sun comes to your assistance and enables you to recover your fortune, the source of help being shown by Jupiters position.

4 elevated Jupiter will generally bring you safely through all your troubles, even when not preventing them.

$\text{♋} \text{SE}$ Better fortune awaits you by going South East (India?) should you travel from place of birth, where powerful friends will help you.

♃ in II Or fortune awaits you by going West from London as Neptune is well aspected and indicates United States as this is both West and under II also Mars is afflicted and malefic and rules Aries, which governs England! So there is bad luck in England but good luck in U.S.A. Also the country ruled by Aquarius would be excellent for me as Part of Fortune is well aspected there.

(8) ON JUDGING A HOROSCOPE.

"planets in one map may throw aspects to planets in another person's map, thus attraction or repulsion can be judged... The effect of $\frac{1}{2}$ aspects is to cause attraction through mysticism (psychism or music) and gives an intense and subtle fascination" - Robson

Transits over Pars Fortuna are important.

Moon north node is important: On Dec. 31, 1933 it was ~~22~~ 22° and travels backwards through signs at rate of 19° per year

Progressed planetary aspects do not operate alone; an aspect (similar) of the progressed or a New Moon is required to focus them into physical manifestation. The Moon (progressed) marks the actual month when the progressed solar and planetary aspects actually culminate in events. Also strong transiting planets (see ephemeris for current year) and particularly position and aspects of New Moons, excite natal influences and precipitate them.

A planet in a house provides the inner capacity but aspects to it is necessary to provide the outer opportunity.

"The position of planets in the solar revolution map in aspect to or \odot with the places of planets at birth is important and act almost like directions. The times of happenings denoted in the revolution are indicated by transits over the revolutional positions during the year." Robson.

NOTE: Physical harmony between two is denoted by rising signs. Fiery signs agree with each other, and so on. But water will not mix with fire.... Sun on the place of Moon in another horoscope shows Spiritual harmony... Venus in same degree as Mars in another map shows sex attraction immediately...

Planets indicates the persons, and houses the effects (troubles or benefits) they cause you
O. S. J. I. The Sun in one map opposition to Moon in another, does not mean disharmony. It means being complementary. If other horoscopic indications were favorable, then a successful marriage could result, even with this opposition.

MEDICAL: Sciatica from Saturn in Sagittarius; Liver trouble from Jupiter afflicted in Libra; Varicocele from Mars afflicted in 8th house

Handwritten notes and diagrams at the bottom of the page, including astrological symbols and names like "HAROLD" and "JANUARY".

MOON IN CAPRICORN: The counteracting medicine for Capricorners is hope and cheerful society. A change of scenery and surroundings becomes essential when they have given way to their greatest enemy, despondency. NOTES ON P.P.'S RADIA ASPECTS:

SATURN CONJUNCT VENUS: Regard the planets as Great Beings, none of them as evil, but all your tutors. Thus even Saturn becomes a teacher, to purify your thoughts. When Saturn is conjunct Venus he becomes a tatalizer, taking away the things you desire until you become purified and get without them. ---Cazoran Ali. It is knowledge of the secret of maya.

SUDHEI BABU of BENARES: You will become an ardent propagandist for Mayavada and will teach classes throughout the world. (Definition by Editor of "Light of the East" Journal, Calcutta: Mayavada is the ~~tant~~ doctrine that the universe is the dream, the ideation of Mind and that the belief in matter is the root of ignorance.) (2) You will develop the faculty of antardrishti. (Definition by above: Antardrishti is the power to suppress knowledge of the external world from consciousness by abstraction and thus to attain knowledge of the true 'I'.) It is insight into reality behind appearances, also inner visions. Also, "turning inwards to the Self."

1st House: Uranus: erratic, wayward, stubborn, Danger of falls and hurts by machinery to the head and that part of the body ruled by the sign occupied by Uranus. It causes estrangement from the parents and kindred. **Saturn:** Melancholy mind, solitary habits; shy, nervous manners; subjects the native to colds; causes bruises to the head; an uphill struggle; patient disposition.

3th House: Mars: Strife concerning the property of deceased persons; danger of a violent death; losses by fire and theft. Life is fraught with troubles and dangers. Death will be quick and painful. The trine of Uranus may however mean that danger is averted by strange interventions, or hairbreath escapes will be made.

11th House: Jupiter: Many benefits from friends; association with of noble birth or good position, hopes and ambitions are brought to successful issues; the ambitions are attained.

Sun: Constant and honourable friends; honours through them; well-regulated hopes. **Mercury:** Many acquaintances, but few constant friends, some association with literary or scientific men. Associations which produce many little worries and anxieties. Mercury, afflicted by Mars it produces scandal and slander and shows enemies to abound.

Pars Fortuna: Property is largely controlled by the position and aspects of the Pars Fortuna. Well aspected, or itself well aspected by the planets, it gives success in the accumulation of property. It is of immense consequence in practice, and the actual significance will be apparent to any who will take the

trouble to notice the transits of Saturn, Uranus, Jupiter, and Mars over its place and aspects in the horoscope.

Jupiter square Mars: tendency to make promises too freely and extravagantly. Afterwards others are disappointed with you because you don't or can't keep them. So always word them as endeavours or possibilities only; don't be definite. Limit them, and

France is ruled by Leo, says Cheiro.

Transit of major planets. See in current year's ephemeris. But must be overplaces of Sun Moon MC Ascendant and not over another planets place TO BE EFFECTIVE. Annually

Saturn Conjunct Venus: Cazoran Ali said: "This aspect tantalises by taking away the thing desired, until one can do without it. It is intended to teach and to purify one's thought. It is a tutor, not an evil."

Dr. P. Subba Rao (Ayurvedic) yogic prediction May 1943: "You will become a great spiritual teacher who will give a great revelation from within yourself to mankind. You may not do so publicly but thru apostles, and thru private interviews. It may begin in the middle of 1946."

Zodiacal Colorings: GEMINI - U.S.A. London, Belgium.

LIBRA - North China, Japan; CAPRICORN: India Mexico.

Aquarius - Russia Sweden. VIRGO: Brazil Turkey. ~~CHINA~~

CANCER - North Africa Holland China Scotland

This is not a medical document and should not be considered as such. It is a report of a physical examination and should be read in this light.

CAROLYN CHAPMAN: too solemn. Your wife will either be someone you already know, who loves you dearly, whose husband is far from well, or else it will be someone you will meet while travelling abroad next year. The marriage will be successful. (15) The mountains of Orgeon, Washington and Colorado are also good residential places for you. (16) You will collect art objects from all the world and love books. (17) You will write for newspapers or magazines and most certainly speak on the radio (18) Kenneth has a good future ahead. He insists on his own way but is morally clean, loves home and children and will probably marry the Lanier girl, who is good. He will do something outstanding in his career. (19) The next ten years will be wonderful for you, when desires and ambitions will be realized (20) Your crucifix (topaz) belonged to the wife of a Greek Orthodox priest, was made in Italy and remained in that country a long time. 2. You think that you have not done your best work in writing. You will do your best work and gain the most inspiration when you use your second brain and build a wall around you, setting you apart from people. Start this work at midnight and work until four o'clock in the morning. When others are asleep you will be able to enter your biggest magnetic flow through yourself from the inner world of being.
3. The Pyramid and Sphinx will configure even more prominently in your future than they did in the past. There will be a lot of exploration work, when you revisit Egypt to find out more about the goal, a work for which you are being urged by your former reincarnational nature. This work will lead you to financial success and great celebrity. You will do a great deal of traveling again in the future and include countries which you have not before visited. The country which offers you the most success is America just now. It will become your headquarters but your last days will be spent in desert sand.
4. It is best for you to remain where you are at present as you are in a cycle that is not moving much just now. The culture of ancient Egypt has to come back again, and you have got to do in connection with this a work which will bring back its lost knowledge to the world. This work will come anytime after 1948. Your work with India belongs to the past. You will not have anything further to do with that country. (1) BROMTON was the founder of the first Grand Lamaist Hierarchy of Tibet. Bromton wrote a biography of his guru Atisa in the year 1055. Atisa later changed his name to Dipankara. Atisa reformed the Lamaist Church in Tibet in 1038 and he died in 1053, after reviving pure Mahayana among the ignorant lamas who had fallen into Tantrikism. Atisa warned Bromton that Indian Buddhist teachers had spiritually degenerated, that Mussalmans were invading India, that monasteries would be emptied and sufferings brought on the country. On his death bed Dipankara told Bromton; "Henceforth do not take spiritual instruction from Indian teachers. They covet gold. The four classes of Tantras being mixed together should be dissolved, that is, discarded as misleading and useless. Oh, Kalyana Mitra! Purify your mind by means of the Sutras."

His party was especially powerful in Kashmir. BERTINE POWERS: (1) You are a writer drawing from the source of wisdom. But you have to learn to resist the voice of reason & logic, which is so much louder than that of intuition. (2) About the end of 1945 a great change took place. You were within a yard of your goal but stopped and did not reach it. You have great enthusiasm but do not sustain it long enough. (3) With you it never rains but pours--in good or ill fortunes. Between the latter part of December 1950 and the latter part of March 1951 a new cycle opens for you, a new door opens for you the tender plant of your own sowing begins to shoot up at last, and new opportunities will bring money success and love. However it will be necessary for you to avoid being sidetracked when you are on this new highway, a weakness inherent in you. Be secretive and do not talk about your plans outside of your professional associates. (4) You over-idealized women and consequently was disillusioned by marriage. A love offer will come shortly, probably from someone you know. Do not get involved in it, do not go overboard. Cautiously about it, or you will get hurt. Wait patiently until after 1951 when there will be a third marriage. It will be happy Until then guard against emotional love. (5) What happened 5 years ago happened by destiny. You did not make a mistake, the failure to take farewell of M was not your fault; destiny prevented it. Soon you will see the wisdom of destiny, why it had to be so and how right it was in this matter, why you had to work alone. Balance it, or it becomes your enemy. (6) You Keeping your balance is very important, have for you. traveled widely, visiting lands where you lived on earth before. You were with Jesus, you were in Rome you were in India and Tibet. (7) Two men, one elderly, come with a proposition or suggestion. It leads to a business or professional organization. You accept their suggestion and soon find yourself at the center of a fanlike organ which spreads out internationally. You must keep it secret, however much people want to guess at it.

IZATION

(8) Start at the bottom with this new business or work, and let it grow up. It is a good thing for you and represents what you have been waiting for. It may be connected with the developing war situation in the Far East and you may have to go on a journey across the Pacific to that region before long. (9) Your writing will not be abandoned while you are with this new organization, but it will go on side by side with it, although as a hobby. Its pattern, style and nature will greatly change, become more dependent on intuition than reason. (10) I do not regard the supposed jinn as a real entity. It is only your own thoughts, and fears given power and life by your own belief. Withdraw this belief, consider it as though to be overcome by yourself, accept my healing aid in dealing with it, and it will soon disappear. Your power of concentration is dynamic. When you think, it solidifies into something created. Be careful about your thinking and avoid negatives. Above all, the 'entity' will be overcome if you read every night before sleep and again on waking, the 91st Psalm and absorb its message, and memorize its words and apply them continually. Saturate yourself in the conviction that the Divine enfolds and protects you. Your aura, as I see it, is full of spiritual flame light and power. How could an evil entity enter it? Pray more, too there is the presence of a great force for good near to you. Draw on it

(11) However the alleged 'jinn' may be some condition you have picked up from spiritualist contacts. Avoid them like the plague. They are evil. (12) Work mentally every minute of the day on the Psalm 91 mantram and you will most surely be freed of the jinn happiness you have not known for years.

ARTHUR FORD (Clairsentient) June 51. : (1) You will still have to wander; it is not yet time to settle down in a home & marry. There is no one you want to marry; it is not for you. Why repeat an experiment which failed? Have no fear to live as you wish, free from entanglements & conventions. Do what you want and you will be happy. You will always find someone glad to enter into the spirit of the moment. Be free & keep to the open road. (2) Go as quickly as possible to Mexico. There you will find a security & FROM A GREEK INSCRIPTION, YOU GOT LOVE OF BEAUTY & OF BALANCE.

Between the Easter festival of this coming year at the Christmas eve of the same year the Silken Scarf of Refuge and Salvation, by whose aid the blessed ones will be saved, shall be made ready and one end of this scarf shall be put into P.B.'s hands during that same period.

In that time three persons shall come actively into the contact to set P.B. free in three different directions from time taking physical activities that he can delegate to others. P.B. should take heed to treat them well, and then they will serve him faithfully and satisfactorily.

To you who write these lines there will come likewise entry into a new cycle with a totally different environment and contacts. Wherein you shall find a greater giving out of what you have gained in the past births, both in spiritual growth and in the voice's magic song. This will bring you a certain measure of happiness, but you will need to take care and keep your feet staid firmly on the safe earth of wisdom that is shrewd as a serpent when in the world yet is as benevolent as an angel when apart from the world. Keep these two sides of wisdom in proper balance. Remember there is only one love which fully expresses what the name means, and that it is no earthly love. If you keep that remembrance and guard it and not loose it you may be permitted to find what the store of karma can grant you in the form of earth's love at its finest.

Yours sincerely

Dear Dr. Brunton,

I am rather disturbed to hear from Mr. Vondruska, with whom I am in continual contact, that you are still without any information about the french translation of your last book. As Mrs. Nicodet has written to you on this subject already two letters from Vienna - the first in October last year, the second in January this year - neither of which seems to have reached you, I decided to give you a third one from here. I suppose the american zone to be a more suitable basis for correspondence with you after all.

Now please let me repeat the essential part of Mrs. Nicodet's first letter, copy of which is at my disposal:

"I have a very bad conscience indeed and it will be a good thing to free myself of the remorse. When I received the copy of your last book you sent me from Gibraltar upon recommendation of Mr. Vondruska I was badly ill with my eyes and had to undergo an operation on one of my eye-lids. I recovered very slowly. Then, when at last I sat to work on some paragraphs of your book, I could not help understanding, that my English did not at all enable me to cope with such a work. To realize that was no agreeable surprise at all and you will find it conceivable, that to confess such a failure is an even more disagreeable thing to do. It took me a bit of time making up my mind to it. - Now I ask you not to be angry and let my good intentions pass for the work I would have accomplished rather than refused."

I am aware of the fact, and Mrs. Nicodet is, too, that this is very disappointing news for you, but I am sure you will understand, and appreciate her honest, if unsuccessful, effort to help you in your task.

You will oblige me by only shortly confirming receipt of this letter, so I can tell Mrs. Nicodet that this affair may be considered as settled.

In her letter Mrs. Nicodet sent you our best wishes and expressed the confidence, that you did not forget our beautiful meeting years ago. I venture to add, for my person, that in my struggle with the awkward influences I am exposed to just now I rely on the mental help you never withhold from your friends.

Yours sincere

H. Österreicher

World predictions.

1. World war will come between 1959 and 1962.
2. The countries which will suffer most will be Russia, China and Mongolia. This is because the races inhabiting them must be largely eliminated because they have fulfilled their evolutionary purpose and are now obstructive.
3. As a result of the war about 3/4 of the world population will be eliminated. There are too many people in the world.
4. Europe outside Russia will suffer to some extent but not too much.
5. Most of the U.S.A. will be unharmed and only certain parts of it will be destroyed.
6. Whoever delivers the first blow of the war will suffer least. Atom and hydrogen bombs will certainly be used.
7. South America will be unharmed.
8. There has been a transference of spiritual power from Tibet to Nevada in U.S.A. for use soon and a second transference to Brasil in South America for use at a much later date in connection with the next race to be developed. Hence both these places will witness the rise of spiritually minded people.
9. Conditions in Indonesia will get worse and the Communists there will get stronger.

ORACLE ON P. B. PERSONAL
GURUNATHAN *** JANUARY 1953

On parting he said, "I cannot tell you how happy I am to have met you. I was looking forward to it." Afterwards he told his son, "I have accepted Paul Brunton!" What does this mean? I did not ask him to make me his disciple.

T.V. KAPALA SASTRI *** NOVEMBER 1952
"FOR THE PAST 2 or 3 days I have been thinking of you. I am always interested in your general welfare and spiritual progress."

THE ANDAVAR *** December 1952
"From this moment attach less importance to the idea of getting gnanam than to love of divinity and being righteous. Do and come again. It has taken 24 years for us to meet. What are we without each other? Only by the union of us both can we fulfill our proper function."

GURUNATHAN *** 1953
"From the very first time I met you, there was something strange which had not happened with anyone else before. I felt I had to give you all the teaching and opportunity I could, that you given only to my own disciples. And as regards initiation-teaching, I was not only going to permit you to attend the initiation if requested but even intended to invite you to do so if not requested."

MARTINUS *** 1952

Between the Easter festival of this coming year and the Christmas eve of the same year the Silken Scarf of Refuge and Salvation, by whose aid the blessed ones will be saved, shall be made ready and one end of this scarf shall be put into P.B.'s hands during that same period.

In that time three persons shall come actively into the contact to set P.B. free in three different directions from time taking physical activities that he can delegate to others. P.B. should take heed to treat them well, and then they will serve him faithfully and satisfactorily.

To you who write these lines there will come likewise entry into a new cycle with a totally different environment and contacts. Wherein you shall find a greater giving out of what you have gained in the past births, both in spiritual growth and in the voice's magic song. This will bring you a certain measure of happiness, but you will need to take care and keep your feet staid firmly on the safe earth of wisdom that is shrewd as a serpent when in the world yet is as benevolent as an angel when apart from the world. Keep these two sides of wisdom in proper balance. Remember there is only one love which fully expresses what the name means, and that it is no earthly love. If you keep that remembrance and guard it and not loose it you may be permitted to find what the store of karma can grant you in the form of earth's love at its finest. -HEALANI ^{Xmas Eve} 1953

Dr. RAMMURTI S. MISHRA: (1) When I met P.B. I noticed that he had the Mantle of Maharishee over him. (I met the M. many years ago) It is there, above him. It is M's aura. (2) PB is the greatest Western yogi, the most spiritual man I have met in the West. He is greater even than Sri Aurobindo and the Mother, whom I also met. (3) P.B. is Maharshee's successor. (4) **Noel has attained great calm.** She is PB's masterpiece. -e. The love between guru & chela is greater than between husband and wife.

Hesper Hutchinson: After meditating with PB I was struck anew by the wonderful purity of his face and the translucent quality of his eyes.

To you who write these lines there will come like wise entry into a new cycle with a totally different environment and contacts. Wherein you shall find a greater giving out of what you have gained in the past births, both in spiritual growth and in the voice's magic song. This will bring you a certain measure of happiness, but you will need to take care and keep your feet steady firmly on the safe earth of wisdom that is awarded as a serpent when in the world yet is as benevolent as an angel when apart from the world. Keep these two sides of wisdom in proper balance. Remember there is only one love which fully expresses what the name means, and that it is no earthly love. If you keep that remembrance and guard it and not lose it you may be permitted to find what the store of karma can grant you in the form of earth's love at its finest.

At each practice of Za Zen I shall join you. I shall be you. The two blend into one entity. The unseen shall take form temporarily, for the benefit of those who dwell in the world of the seen. In that state of Za Zen and to that being who shall come into this form for that time, the name of Healani is to be given, for it applies to the new one who is born out of this union. Healani appears

Healani appears to give Grace. Five ways shall this grace be manifest. In the first way, there shall be healing, whether of mind or body, feelings or thoughts. In body the sickness and disease, in mind, the pressure and tension, in feeling, the lusts and the illness making negatives, and in thought, the errors and the imbalances. In the second way of Grace, the spoken word shall be used as the channel. In the fourth way of Grace the written word shall be the channel. Whether written by Healani's own hand or by his scribe's hand upon a type machine or whether printed in journal or book. In the fifth way of Grace there shall be nothing used that will reach any of the five senses of the body. There shall be no outward acts by Healani other than the simple sitting on the part of those who are to receive, in relaxed silence.

From this Christmas eve to the last day of this holy period which ends with Easter, Healani will inscribe the message of the new book through P.B. Therefore, this message will be brought to an end at Easter, not before, and not later. For that work P.B. must withdraw from all other work, and must isolate himself still more and must postpone the other necessary activities until the writing down of the message is finished.

It will be needful to have two sessions of meditation each day. The first to open the day, the second to close it. Whether the sessions be short or long, according to the conditions and circumstances of each particular day, they must be held.

After the work of writing the new book is at an end, a fresh cycle covering the next few years will open for Healani, and for his servant P.B. This will be concerned with the selection and the preparation of those who are to be brought into the shelter, and also for the preparation of the shelter itself.

At each practice of Es Zen I shall join you. I shall be you. The two blend into one entity. The unseen shall take form temporarily, for the benefit of those who dwell in the world of the seen. In that state of Es Zen and so that being who shall come into this form for that time, the name of Healand is to be given, for it applies to the new one who is born out of this union. In the second way of Grace, the spoken word shall be used as the channel. In the fourth way of Grace the written word shall be the channel. What of the destiny of Hindusthan? Those of you who are students of the Bible or the Christian religion will henceforth see a parallel in India to the story of the Cross upon Golgatha. Gandhi is playing the role of Christ in so far as his person is concerned. He is about to crucify himself: though by this insensate step he will produce results in direct contradiction to those produced by the martyrdom of Jesus Christ. Passionately as I once adored Gandhi, my planetary calculations leave little doubt in my mind that he is the most terrible thing that can have happened to India, Britain and the war in general at the present time. His horoscope shows obstinacy, power that maddens frail humanity and chaos.

If only his disciples can prevail upon the Mahatma to take complete rest for a period of 80 days and then return refreshed to politics, Gandhi would still die blessed as the saviour of India. If on the other hand he controls the destiny of India in his present state of mind, words fail me when I attempt to read the future. Civil war within, riots, incendiarism, bloodshed and increasing possibilities of enemy invasion--all these are inherent in any sane astrologer's reading of the planets grouped over the Gandhian leadership.

Other aspects and influences affecting India bear out the saying that sorrows never come singly.

India from now henceforward passes under the astrological influence of China more than Britain. This may appear strange, but forces directing such an eventuality have already demonstrated themselves to the Indian public. This is a good thing for us all: because when this war comes to a conclusion, China will be left the undisputed overlord of Eastern Asia. And if Jawaharlal Nehru is to be Gandhi's successor in the leadership of Hindustan,

his horoscope shows to the naked eye powerful attachments with China and her present leaders.

Uranus-- the topsy-turvey planet of surprises-- became retrograde (namely, started moving backwards) on September 6, 1941, and will continue to be retrograde till the end of February this year: whereafter

*In the end Hindustan and Muslim achieve peace thru separation
But the course of events long and drawn*

it will re-ent... ment and re-enter Gemini in the middle of May 1942. It will not leave Gemini again until May 1949.

Indian leadership today suffers the adverse influences of self-frustrating planetary grouping. It is the story of France repeating itself with a vengeance. Gandhi's horoscope is destined towards the end of his great career to wreck and destroy all the good he has done this country. His is the responsibility--from the astrological viewpoint--of our present woes. His obstinacy and misconceived spiritualism is leading India into a veritable pit of Yama.

Washington had a dream the night before the Battle of Valley Forge. In it he saw three world wars. In the third war he saw great destruction to the larger part of USA coming from Asia. But it was repaired and rebuilt with amazing speed.

Walter Russell: "Civilization will disintegrate to a point beyond our control in 1960. --unless we reverse our human relations by the golden rule of universal brotherhood and love.

Star-c... ill and Roosevelt. For both these leaders there is trouble brewing; and I am afraid when this war ends, if not long before, neither of them will have the fame, name and power they enjoy today. I have said this again and again not without good reason--

Astro changes may therefore, be expected within Britain and America. Their horoscopes reveal that these changes centre round two vital items--FINANCE and IDEOLOGY. Obsolete finance and obsolete ideals are corrupting their side of the war at the present time; their leaders forget that Uranus--the very planet of cataclysmic change --rules the destiny of the world today.

Uranus is the whimsical planet. It upsets known values, conventions, governments, accepted ideals. It makes enemies of friends, friends of foes. In this war the ultimate message is from Uranus. It re-entered Gemini in May, 1942. It will "house" in Gemini till 1949. These seven years will see a complete change of the world.

() "A MAHATMA LETTER": "When your race will have reached its zenith of physical intellectuality, its progress towards absolute evil will be arrested, as its predecessors the Atlanteans were arrested in their progress towards the same. See the remnants of the Atlanteans, the old Greeks and Romans, (the modern belong to fifth race) how great and how short their days of glory."

"The tendency everywhere will be for things to go from bad to worse. In respect of religion, India will become irreligious. The infidel countries beyond will take it up. What is likely is the discovery of the soul-nature by the Europeans and American peoples."

() Nature is destitute of goodness or malice; she follows only immutable laws, when she either gives life and joy or sends suffering and death and destroys what she has created. Nature has an antidote for every poison and her laws a reward for every suffering. The butterfly devoured by a bird becomes that bird, and the little bird killed by an animal goes into a higher form. It is the blind law of necessity and the eternal fitness of things, and hence cannot be called evil in Nature.

() Evil is the exaggeration of good, the progeny of human selfishness and greediness. Think profoundly and you will find that save death --which is no evil but an necessary law, and accidents which will always find their reward in a future life -- the origin of every evil, whether small or great, is in human action, in man whose intelligence makes him the one free agent in Nature. It is not Nature that creates diseases, but man . . . Food, sexual relations, drink are all natural necessities of life; yet excess in them brings on disease, misery, suffering, mental and physical.... Become a glutton, a debauchee, a tyrant, and you become the originator of diseases, of human suffering and misery. Therefore, it is neither Nature nor an imaginary Diety that has to be blamed, but human nature made vile by selfishness.

(C) You have to learn the skill and high art of living within human relationships. If you do that you may be able to pick up far greater tasks in life than you can do now. You will come to understand the 'master-disciple' relationship in a new and better way, and take your rightful place in it to the benefit of all around you.

(30) Try to stay beautifully relaxed after the special sleep, even though you are active (31) The meditation which you and yogis practise is on a different wave-length from the one I practise. When you tried to commune with mine by long distance, I felt you in my orbit only for ten minutes, for thereafter you swung out into your own. When you consciously seek to meditate, you unconsciously get in the way of entry of the Force coming from me. Your kind of meditation produces stillness, but not healing. It quiets nervous tension but does not radically eliminate it. (32) Another mistake of your kind of meditation is consciously to seek for results from it. This defeats your purpose. Rather leave them to Heaven. They are not your business. Don't get attached to them. Don't want them. (33) For years you have been driving yourself in the attempt to become better, righteous, you have been crushing weaknesses and intolerant of your ego. You hated yourself. This is now wrong. Accept yourself, love yourself. Then the Force will work thru you, and maybe on you, just as you are. It does so with me, despite my weaknesses of anger and impatience. The patient never gets them from me, but only sweetness and light. This is the Force's magic. (34) You complain of insufficient time to get thru all your work. Why don't you ask yourself how much of it really needs to be done? how many of the people you meet need not be met at all? I know you want to do your duty, to be a faithful servant of the Lord, but why not leave all that to the Force to take care of? You don't have to do everything. If you relax and sit back, things will go on still. How much of this work has been self-created? (35) You need have no inner conflict or remorse about the parting from Ramanasram. You were led away from it not only by personal defects but much more by the will of Heaven. The time had come for you to follow a different path. Thru doing so, you have made yourself more serviceable to the West, the moderns and to the young generation which cares only for action. You could not have come to it except by living it; imagination would have been too weak. Having lived it, your voice has become authoritative, as you know whereof you speak. You have such great humility about yourself and achievements that you greatly underestimate them. You do not realize what an enormous influence your books are having. (1) You will become successful and wealthy in South America. So do not get discouraged by your early experiences there, due to the need of adjustment to a ~~xxx~~ foreign atmosphere. (2) You will have a long life, outliving your wife. (3) Communism will fail in South America but Socialism, social reform, the welfare state, will take over there. The Catholic Church will adjust itself and become socialistic too. (4) Your Moon is in Pisces, and Capricorn is in your Ascendant. This indicates that you will do best in a country bordering on water. Do not live too far inland. (5) You are a gypsy and will not settle in one place but see all parts of the world, including Africa, India. (6) You are psychically impressionable about places. Follow your feeling after arrival in order to decide about settling there. (7) This year your personal life will advance favorably. Tremendous new friendships are coming into your life. Now is your time to go ahead and go abroad. South America is the place for you; you belong there. Start your journey (and all major journeys) during the first quarter of the new moon. You will be happier in S.A. than in any other country. You will become well known there; ^{very} lucky, be very active and make money. You will speak as well as write there, and some of it will be in connection with art. Success beckons to you from there. (8) You will always be safe in airplane travel and never be killed in one. But you will have to pass through an earthquake and a fire but they will not hurt you. (9) Next year you will meet a woman; it will be for your benefit. (10) Although you could succeed in Brazil, Argentine, Uruguay and even Chile, only Brazil and Argentine would be best for you. Rio de Janeiro, Sao Paulo, Buenos Aires are all favorable to you. Ecuador is undesirable for you. Do not fear the unsettled conditions of Argentine, it would be safe for you, and good too. Places near water are the best of all, especially Sao Paulo and Buenos Aires. Perhaps Sao Paulo is the luckiest for you. Brazil has a tremendous future. (11) Your wife will get on well with her career in S.A. and be quite successful and well known.

() After you have returned from your 1952 travels you should find a house and place for permanent residence. Settle down at last and stop your wanderings. Arrange for meals and correspondence to be taken care of by others. Then you will be much freer and have more time and be under less pressure. Take up prayer and meditation for long periods daily and nightly and thus advance thru the next phase of your progress. CHEIRO'S WORLD PREDICTIONS, (1931)

(1) England and U.S.A. are compelled to join together, in spite of irritating and petty differences, not only to protect their nationality and interests but also all they stand for in the great plan of progress and humanity.

(2) There can never be real unity between England and France.

(3) Russia ruled by Aquarius with Saturn, will pour out her blood like water and this will make "the new earth" the Aquarian age, whose dawn has now commenced across the world but its first rays will revolutionise the Saturn-ruled lands—Russia, India, China and Tibet.

(4) Russia will become the most powerful nation in the history of modern civilization. Its political and economic ideas will spread like an infective fever which will completely transform Europe, Asia, the far East especially. The rich classes will be equalized socially and economically with the poor, often voluntarily.

(5) Church will become separate from State, it will be humbler and poorer, numerous new sects will come into existence during the next 100 years. Great evangelical revivals will sweep all countries side by side with atheistic and freethought movements. Hence civilization will change like chameleon.

(6) It is only war that will save humanity. Through intense tribulation man will be more fitted for aquarian age, born of blood, and arrive at unselfishness through suffering.

(7) The coming years are maleficently ominous for the House of Windsor.

(8) U.S.A. will dominate the air.

(9) Britain will have to give in and yield to colonies seeking their freedom.

(10) Britain will retain her supremacy at sea and even expand as a carrier for other nations.

(11) U.S.A. will become the supreme trading centre of Far East and North and Central America.

(12) A Jewish lawgiver will arise who, by grouping all nations into combinations under their zodiacal signs, sweeping away the present unnatural frontiers will cause wars to become impossible and universal peace established. Armageddon must be fought before this.

(13) In next war, England will give India her freedom but religious warfare will rend that country from end to end until it becomes divided between Muslims and Hindus.

one

(14) The coming war will be only ^{one} of many that will occur in the next few hundred years leading up to the final armagaddon. This is because we are now only on the cusp of the aquarian precession. Hundreds of years must pass before humanity will feel its beneficial effects, which will be about 2,460 A.D. Now we are only at the beginning of aquarian changes.

By the power of God, worked through His prepared instruments, the tide of war will be stemmed and, ultimately, the war mentality in the world will disappear. People in the West are nervous due to the fear of an approaching war. It is now xx called a war of nerves. This fear has seized them and they are trembling every day. A prayer in which empathy is lacking between the one who prays and the one prayed for cannot register with that power which answers. We have to attend to our neighbour in the sense of becoming one with him.
- ④ An effective intercessory prayer is to take the one in need with us, mentally, when we go into the Presence to meditate. Then, altho' our attention shifts from him to God, he shares in the transforming power and his need is met.
- ⑤ Another method which is also telepathic to link someone in need with God's power: when he is asleep silently call him by name, repeating it steadily. Then remind him affirmatively that God is equal to his need, is available to him, is at hand; has the resources, love, power, wisdom. He has only to ask, in longing, to turn to it for help. But we have to communicate with the direction born of experience: there must be authority in what we say.

Q.J.

Take the abundant accumulated literary material now existing and use discrimination in working it up. However, a sparkling diamond and a rushing stream scattering debris symbolize the giving out of new things. A new book will come out. You should give out more of that which is personal and sacred.

Give it at the high point. New literary material should be now given out. This is the important task but the old existing material may be used to interweave it. Treat the old material as a stock to draw on for such purposes. **Q.J.'S TEACHER**

This cycle of one or more books will take 2 or 3 years. There will be dryness after that. Then lectures—and you are not serving to the fullest capacity. You travel to the dark places of the world to lecture or to give interviews. You will finish writing and be more favorable to lecturing, but you will manage it so that it becomes not so personal and so they not be given in the ordinary way.

Your search was conducted with such discrimination that many people admire it and would love to hear you. Your philosophy will become defined finally in writing and then you will teach it to classes or in lectures.

Your contact with the film world is only the germ of an idea, but you have no time for it. The new literary work is more important. The film world is not your field and your only work for it may be as an adviser.

You will visit India, altho not for long, but it will bring you into a political environment as much as spiritual. You do not need to go to India for spiritual enlightenment—you have that already. Spiritually you walk alone because you have the strength to be.

You seem to have to meet all over again, from time to time, the problem of getting personal helpers for the work. People come and go. You are fated to work alone.

Your own sensitivity to world conditions is stymied by the slothfulness and inertia of people and you wash your hands of service but after a while you are back in it again, thru kindness.

Writing is your chore, your disagreeable routine task, because you can't find time and energy for it. You have not given all out yet in writing, so there is more to be done there for a few years.

Only after that will you have peace of mind.

Your resignation and quietness are so pronounced that desire and emotion are as dead. Yet you are not empty, because there is a radiation coming from you. Yet there is no ecstasy. It is because you do not push yourself into the rich inner vision but remain in that remarkable balance of yours. You still seem to be searching but you are going to be used to help others very soon and to give them light. People look to you as the teacher. You walk thru these dark forests, these dark places of the world, as a light.

You will never have a permanent home but will always travel. You are pushed around and out of places. The higher law does it. You are going to be used in service by such movement. **this spring**

When the inspired writing for your book comes through it will flow rapidly. It will be as though you were listening inwardly and writing to the dictation of this inner voice. The work will give you a feeling of satisfaction. It is more important that you write on the virtues and disciplines which are the bedrock of the Path than of the opinions and themes which are its less important accompaniment.

A large sum of money is coming to you shortly, whether thru earnings or otherwise is not clear. You will spend it on further pilgrimages and then another sum comes and again you spend it.

You have to blend the human and the soul qualities before the next higher degree of your soul illumination. You have also to write something script on the male-female, positive-negative love between the sexes. You will write it—as all your writings—out of your own personal experience, which you will get soon.

Teye's Guide: He has to pay. He lacks in grace. But he will succeed. The grace of God be with him. He will be blessed." Comment by Teye: The 'grace referred to here includes both and divine, hence also graciousness in manners.

(4) HTBY was written from the intellect-mind. Let your next book be written from the heart. Otherwise I beg you to desist from writing at all. Give yourself plenty of time to do it. Such a work cannot be humed or turned out under a dead-line.

(5) I recommend you to settle down in a fixed abode. You are getting on in years and need to safeguard your health.

(5) The day I bade you farewell eighteen months ago, when you resumed your travels across the country and abroad, was the day this interior presence of an inner guide or guru began its life in me. And the moment I saw M's photo on your table when we met again, I recognized intuitively that this was he, the presence.

(6) I reject E's God-experience. It is only 5% genuine and 95% imaginary. If it were the real thing it would not have passed away. I had two real enlightenments--one in 1947 during deep meditation and one in 1952 after meeting my guru. They remained permanently. I even progressed beyond them as time went on.

(7) The 1952 travels to Europe and India should be your last ones. Fix on a settled residence and devote your time to prayer meditation and writing.

(8) You will live long, become much happier, and attain lasting enlightenment. The guru said you ought not to have married. It was a mistake; and that had you remained in California he would have met you on his arrival two months later.

- SYRIAN PROPHET'S COUNSEL to PB

(4) HTBY was written from the intellect-mind. Let your next book be written from the heart. Otherwise I beg you to desist from writing at all. Give yourself plenty of time to do it. Such a work cannot be hurried or turned out under a dead-line.

(5) I recommend you to settle down in a fixed abode. You are getting on in years and need to safeguard your health.

(6) The day I bade you farewell eighteen months ago, when you resumed your travels across the country and abroad, was the day this interior presence of an inner guide or guru began its life in me. And the moment I saw M's photo on your table when we met again, I recognized intuitively that this was he, the presence.

(a) I reject E's God-experience. It is only a general and 5% imaginary. If it were the real thing it would not have passed away. I had two real enlightenments--one in 1947 during deep meditation and one in 1952 after meeting Sri Gurus. They remained permanently. I even progressed beyond them as time went on.

(7) The 1952 travels to Europe and India should be your last ones. Fix on a settled residence and devote your time to prayer meditation and writing. You will live long, become much happier, and attain a lasting enlightenment. Sri Gurus said you ought not to have married. It was a mistake; and that had you remained in California he would have met you on his arrival two months later.

() If the failure of 1919 to emigrate to San Francisco was due to the fault of excessive caution, - the failure of 1929 to ~~RETURN FROM~~ ^{RETURN FROM} ~~INDIA~~ ^{INDIA} was due to the fault of excessive pride. The scheme involving White was an excellent one and would have been successful -- all I had to do was to carry it out, but I sat down and waited instead of getting action on it. I waited because I wanted the first move to come from White, whereas it should have come from me without delay. If the object of this scheme was so important, then every other consideration including the emotional one of pride should have been brushed aside as secondary. This same failure to pass the test of pride repeated itself later, and in the same form of sitting down and doing nothing instead of getting positive action done in connection with Guru Ananda Mesaya. The supreme importance of restoring the contact with him should have washed aside all objections. The ^{SAVAGE} ~~fault~~ of this pride was, of course, the ego, as well as poor judgement (practical). But even if I had not adopted the White plan, the other alternative was to adopt G.S.'s suggestion when the same result would have been brought about, ~~for it would have led you to~~ ~~and then~~. However, even this second alternative would have failed if the same fault had operated. It is true that this pride masked itself as humility, but it was a false humility. in White's case

() The long awaited call did come, but it came through the medium of G.S. in the letter of February. No doubt, that letter was inspired by mixed motives, both the desires of the ego and the inner prompting of the Over-self were mixed in it. But still that prompting came originally from the long awaited source and provided the authentic call to which a response should have made.

From the Hand-Print which portrays Consciousness at work, There appears to be three expressions, viz: Action-Inaction-Reaction.

The first phase of Action has been over now for a considerable number of years though there appear to be loose ends which will still have to be dealt with in the future. During this period you were very positive and determined in action though inwardly uncertain in thought.

Your second phase of Inaction has given you plenty of time for thought which has shown in outward quiescence and inward activity. This is a period of true involution which is leading however to certain bouleversement.

Your third phase of Reaction is about to develop into Personal or Cosmic bouleversement. A fearless attack seems imminent without caution or restraint. You have finished with inward interrogation and now know the answers to all Questions of Truth, viz: An exposure of all false Gods.

Words are poor tools to express the cross-currents of any man's complex nature but you have the unique ability to read the inner meaning of such symbols and therefore little need be said of the Inner Conflict of your Conscious Realization.

The outward expression in the years to come relies entirely on the physical structure which bears the strains of this New Birth. There is need for personal attention to your physical needs from other than yourself. You need to take a Stand-physically as well as mentally. Travel of Body and Mind must be given up and complete rest and varied company is needed. Mixing with people, being seen at gatherings and entertaining friends socially is essential for peace of mind.

Your whole approach to life takes on a different form though the change is not self-sought. It is the Path that is being shown you now for some time as the only one for health of body and soul, for the mind is quite able to look after itself. Infact it is too strong for the rest of the composition. For many years now the mind has acted as a break on the more sensitive parts and unless the strain is lessened and the important parts oiled than friction of nerve centres will result causing a bouleversement within instead of without. All pent-up energy should now be exerted on the World outside AFTER a period of complete physical and mental rest. REST-not inner Quiet. A Holiday in fact. A real holiday, i.e. Change from all those forms of thought and action

of the past years.

If this Rest is taken then there is no stopping the future Outward Activity which has an expression of complete satisfaction and fulfilment. Success from a worldly point of view is assured so much so that the last stages of life which most people dread will be the Best Years of Your Life because you will have attained the one thing your Hand cries out for—Appreciation of Life.

This year (1948) with your European tour and northern trek, you start another phase of coming out into the world. The chest weakness will be cured, it is not deep-seated. (3) You will take up public speaking again (4) Many short journeys within a Mars-governed country.

DIANA (palmist) December 1948: (1) During the coming 12 months you will receive a helper who will work for you, and with you, in a tremendously satisfying way. (2) During your passage through the fifties, (age) you will form an association with a woman which will be in marvelous harmony. (3) February 1949 will bring you out of a period of rest into a ~~new~~ period of fresh work, which will last till November. Speech will be connected with it, as well as writing. You will have much to say, or dictate or to lecture. This will also be true of work in later years. (4) From the middle of 1951 you will be established in the public mind as an authority, occupying front rank, and will become almost a leader. It will be against your will but you will be unable to escape it, it is your destiny. (5) Keep your moves and plans secret. Except a very few collaborating friends, tell no one where you are going or what doing. Otherwise you dissipate power. (6) In 1943 you realized that you had reached the end of an analytic ~~cycle~~ and have been preparing to pass into an inspirational one. And since a year ago you have been preparing to pass out of 'practical' routines, in which you have got caught up, into mental inspirational ones. This year you went abroad largely to finish this old cycle, clean up house and bring it to an end. Now press forward into the new one, which is your real work. (7) Listening to music is a powerful help to you in both your personal and inner lives. (8) You will meet next year a woman you have never met before. It is possible that you may marry her. If so, it will not be before your cycle of intense activity ends, which will be around 1953. However there are difficulties in the way and you may be resigned to let your friendship remain unconsummated by marriage. --May 1948.

RB-(11)

Wear the black eye-shade for meditation."

There is great concentration of powers of intellect with you, great toil and activity which tears you apart at times. You cannot do all or work with all that comes. So you have to have periodical house-cleans and eliminations. You crave clarity of the mental clutter that comes to you, and which you attract. You have to wade thru and sift all this. It keeps you too busy analytically to have the pure enjoyment of the inner life. Apparently you have a real vocation for such sifting. Yet there was once a love, a joy, an inner delight in the real pure thing.

You at times seek to free yourself from all the clutter.

You have passed thru a 25, 20, 15, and 7 1/2 year cycle. This great intellectual activity seems top-heavy.

You will not be free of all this intellectual clutter until seven years have passed. Then you knock on a monastery door and as you enter it, you seem to be a free man, with a job well done behind you. You come back like a boy of sixteen starting all over again. But really it is getting something that you are hungry for. The monks in the monastery take you to a cell, which seems very familiar to you. It is simple. You are so happy there as tho you had unsnapped something in yourself. It is what you want. The clutter has gone. Here is the serene consciousness you wished.

It's like a quiet clear pool. You have earned this retreat. All duties and responsibilities have been discharged. You put on a monk's robe but it falls off, and your nudity symbolizes purity. The robe symbolizes a skin which falls off. You are reborn. This return to visit the monastery may be merely symbolic or it may be actually physical.

Tears of joy well up. A new white robe is put on you. It is a great crucial experience. All night you pray and worship. In the morning you are in a flush of new spiritual growth—now warm mellow soft and compassionate—as lovely as a newborn baby. Days pass in that peaceful place, where you relax, sit and rest.

The day comes when the head of the monastery

calls you. It is a meeting of masters standing around him. He welcomes you in a friendly way. He says "Do you feel strong now to go back into the world to fulfil other plans?" You say "Yes." He gets out a large map of the world, where there are dark clusters in different places. You have to visit and walk thru all these dark places. You continue until you are an old old man; tired of perpetually walking thru dark forests. You fall down but masters come and hold you up. Then you make a crutch and finally even that fails you and you give up the body. But when you step over on the other side, immediately you find work to do and you ask "So there is no end to work for me?"

There is great stillness in you... There is work that only you can do. You must go down into the world's dark places and serve... There is a sustained consciousness in you; You keep a finely adjusted balance—nothing too much. The serenity which is the keynote of your life enables those higher forces to work thru you freely.

You work on books and are puzzled at times whether to insert or leave out things. Whenever there is doubt, wait a period of seven days—Sundays are particularly helpful. People clutter your life. Withhold doubtful things for a while and ultimately there will be a clarification. The better ideas gradually come to the surface. There is no end to this work and this pressure, except when you can escape at times in consciousness or, once, to the monastery mentioned.

You have walked unresponsively thru a lane of beautiful women offering love and affection, but there have been times when you almost turned and went back. There is still a little pain of things renounced or outgrown. This has left some sadness, yet you are so well-balanced that even this does not stop you. It is the result of self-discipline.

There is a teacher with you—genial, great strength, good nature and good humor. He has been like a brother to you and walked beside you several times. Many times he has had to wait until you reached a conclusion. He is assigned to you and is in constant attendance from the other plane. He is devoted to your growth. He is far on the way, altho not on the highest plane. He helps and further-s your work.

Only a few sections of the northern hemisphere will remain unwarmed. Then follow a five years complete anarchy. The law prevails, survivors praying on the more fortunate ones who have a few belongings. A savage chaotic state of affairs from which a new civilization emerges. Human life will be more decentralized from cities.

P.I.H.NAYLOR: WHAT THE STARS FORETELL for 1962

(1) In 62 all nations that trade with each other will live thru an economic crisis of the first magnitude. It will no longer be possible for any power to be independent of the others. The more developed countries where the standards of living are highest are due to experience shock, blockage or 'a stroke' This is a year of crisis, emergency, transition, altho we may -ol resent what is happening on levels that we cant contr
(2) The Aquarian Age is due to be hammered out within the next 200 years, and to expand thru the next 2000 yrs. (3) For the individual 1962 is likely to produce problems and bring crisis in all types of relationship. (4) One sinister portent is for restrictions on freedom of movement nationally and internationally. (5) Before 62 will have closed the trail will have been laid for a grand changeover in the mental attitude of the world, a moving on to new lines of thought. For the eclipse of the sun on Feb 5th is one of the strangest ever known, portraying upheavals in the principal land while the annular eclipse, tra^ditionally held to be^{-s} less forceful, on July 31st, follows. On the February one the point of total darkness occurs in the Pacific particularly over New Guinea; ancient seers would have said these were the areas chiefly affected. My own opinion is that repercussions will have a most disturbing effect on the economy of the British Isles and Commonwealth; and that there will be intrigue and rebellion rather than nuclear war. (6) A Pacific conflict is impending, with a dangerous situation between the USA and Asiatic powers, especially China and the countries it shadows. The Pacific is the breeding ground of the great developments of the next 50 years--Formosa is threatened considerably by 1962 events. Chinese influence will grow and percolate -d until it dominates Asia. It's alliance with Russia could change or break. (7) Britain is economically very vulnerable, shaking her markets to an unprecedented degree, leading to tightening of belts. (8) This will be the most significant year for Russia since '17, with dramatic changes (9) India will be troubled, divided against itself

GLORIA LEE: WHY WE ARE HERE (Communicated from Jupiter)

(1) Only the northern hemisphere will be affected by fallout in event of war. This is because the centrifical force in this area will throw off any subversive elements or activity and will not affect the opposite atmospheric rotation of the souther hemisphere. The people in S. Amer Australia etc will not be affected other than possible floods earthquakes and things of that nature, such as the weather, which will be greatly affected and may turn very cold in some areas. It would be well to have warm clothing on hand. (2) Australia's, in several years time, going to rise 2,000 to 3,000 feet above present level. This will be gradual in some places but quick in others, depending on land structure, fault lines, etc. But there is no need to worry at present (1959) as it will be only when the country is vibrating more to the New Age. (3) Lemuria will rise again within a few hours (4) War will not come if your people can change their thoughts of the enemy from fear and hate to love. If you cannot, then destruction must take place to cleanse this negation. But create a thought of love and you will be protected. (5) I tell you these things because the New Age (aquarian) must come in and must be accepted, so a cleansing process must precede it. When man tries to learn, he learns the hardest lesson. But when God teaches, He guides gently and with ease. Man creates his own suffering., which is unnecessary with God (6) Because Lemuria will be of a cleaner vibration than what you are living on now, it must rise again; the planetary logos will work with it.

MEHER BABA: "The time has come for the pre-ordained destruction of the multiple separateness which keeps man away from experiencing the feeling of unity and brotherhood. This destruction will take place very soon (spoken about 1960), will cause three-fourths of the world to be destroyed. The remaining one-fourth will be brought together to live a life of concord and mutual understanding, thus establishing the feeling of oneness in all fellow-beings leading them toward happiness. Humanity is not going to be saved by any material power--nuclear or otherwise but only thru divine intervention. The greatest danger is not from natural catastrophe but from man himself. The urgent need is LOVE "
