UNAPPROVED NOTES

PB + Mahesh's Ashram the manager (R's brother) said PB would be m's unekaranda. He helped the ashram arrange for publication of m's works and published separately in India the two ch's dealing w/m as a special book which gave the ashram great publicity. Then they asked PB to give all of his royalties to the ashram since it was Namana who had enabled PB to become famous. They then forbade note-taking in R's presence because they feared that PB would take notes and use them for his own gain. PB had to break w/the ashram but not M. This opened his eyes to the problems of Indian ashrams.

The whole thing turned into a game of PB now feels he should have quietly picked himself up and left, showing up discreetly in the future; instead of arguing, he should've kept quiet and not argued.

② UNAPPROVED

~~the~~ study + class we are lucky to be able to go to the lectures in addition to reading the books, but one must do both.

There's so many mysteries to be solved. It's not easy to understand what you understand.

me - on my not having any ^{previous} important questions for PB - that is good. It shows that you have achieved a certain equilibrium

children - disc. of kids not eating what their parents want - NAMANA mentioned one in particular who had a very strong mind - 'well you must show that you have a stronger mind'

the last week PB mentioned or brought up Aguarana age a # of times during world situation. The meaning of the Aguarana age is that in the end the forces of harmony and truth will prevail. Regarding present future difficulties ↓ It's more trying to

i.e.,

study + class we can look to be able
to do to the lectures in order to
reading the books, but we must do both
there's so many experiments to be done
It's not good to understand what you
understand

any way not having any material
1.6. Don't want that in your
shows that you've achieved a certain
qualification

children - class of kids not entering
these parents want - some more material
one in question what's a very strong
- how - 'well you want show that you
have a stronger mind'

the last week to make a point of difference of these groups
the majority of the students
are in that in the way of learning
and that will be the way forward
I think children will be

UNIVERSITY NOTES

to understand the system the teacher (as a teacher)
and to work in it's structure the help
the system because the explanation of it's parts
and explained separately in their the way
it's dealing with a special kind of work
the system great ability how they worked
to give all his knowledge to the children
since it was famous who had worked
to become famous they the teacher rate
working in it's structure because they found
that to work like that and see the
for his own part to be to be the
system but not in the system to give
to the problem of having children
the whole thing turned into a game of
to be able to study how quickly better
will up and left, and go through
the future, instead of making it
we left that and not going

think Hwt.

mention of religiously dogmatic
people who retain a characteristic attitude
religion dogmatism

People who resist the impulse and forward direction and are narrow-minded may take a few incarnations to open up but they will.

① When I said (previously) we will see how far they let it go (I had asked) I meant humans, not higher beings - I am only familiar w/humans, not higher beings. But they will be humans of a higher level.

reading my notes

⊗ p2 - but 2# - That's

the power of thought. So many people have missed good opportunities because they didn't have faith. They have untapped resources which they are not using which a more positive attitude could bring out.

~~condition of world~~ - world situation Along with a renewal in spiritual subjects there is the other side - an interest in occultism

⑦ VA

and black magic. Although many of the spirit ideas are not new, there is a new influence the Aquarian note.

HPB says the last 1/4 of every century there is a spiritual push. That's why she founded the T.S. in 1875 at the beginning of the last 1/4. I've never come across that idea before. The Adepts who were her teachers didn't think that the west was ready for the teaching, and only after her continued persistence they consented. The fact that these adepts appeared mysteriously at the right time in people's lives or history shows that there's something ~~to~~ behind shaping the events, but they ^(the people) have their limitations and must work within the laws. They are humans, but super-humans appear also but at much greater intervals. Those beings help themselves and don't want to get caught

by humans. They're elusive and one off
the moment they're observed. There is a lot
of evidence by now that there's something
coming in from outer space despite all
the false stories. - there's enough reliable
evidence. They don't come for nothing.

Semantics Kant used reason in the
higher sense and I made the mistake
of using the term, but it created problems
(i.e. was misunderstood in its full sense)

confusion about PB, one not knowing how
to relate to him (I restrained my words +
hoped they didn't disturb him - he said
some of the others had spoken to him
about the same) - It's pretty
inevitable because of the nature of
my position, of my character.
