Dear Dr. Brunton:

I have read many of your books and have learned so much from them. "The Wisdom of the Overself" has given me so much direction and I am most appreciative of your authorship of it. I have grown immeasurably through the sharing of your thoughts.

I have heard that you are teaching classes in Europe. Since I am a teacher and have summers free, I am wondering if you have classes this coming summer, 1973. If so, I would like some details about them.

Where are they held? Who is eligible to attend? Are they beginning or advanced or both? What is the tuition? And how long do they last.

Please send me this information and I shall be most grateful. I am enclosing a self-addressed envelope.

Sincerely,

Dorothy Elder

I purchased a book, A Search to Secret India. This is a very enlightening book. Through the Eastern + Western of Yoga + religion, this book has brought me to the point of understanding that a person needs no master only your soul way. That was my prayer of my younger youth + also now at middle age. Between the two ages - a lot of water has passed through the dam. A search for truth has been my aim all my life. I hope you will reply + give me the information for my spiritual growth.

Please send me the practice + method of Brahman Chinta also the ten rules of practice of yoga of Brahman Chinta, as mentioned in your book (A Search to Secret India) No. 2 you can follow the path into my own soul to God. This letter has been written by my wife for me

My dear Teacher and friend,

I do not find enough words to thank You for all Your Grace. It was unexpected gift of God to us, to be able to stay with You for one week in the mountains.

I miss your enchanting smile, your cheerful conversation and the look of your eyes touching the heart.

The farewell was painfull, but I see often your dear face vividly before me, the thoughts are still and a splendid Peace envelopes me entirely in which I am plunged.

The great gift which was put into my heart needs time to ripen innerly in order that the Grace could work according to its Will.

Our dear Friend and Teacher,

enclosed I send you several  
photos from Huben.

Once more I have to thank you from the bottom of my heart for your invitation. It was an unexpected gift of Grace to us. And the miraculous working of the Higher Force enabled us, that we could come to Huben.

The wonderful experience of Stillness, Force and Light in the church of Huben gave me a definite change of the inner life. It still lasts in the Heart, felt as your Presence, connected with an inner joy . This experience gives a better understanding of the Truth of the Short Path, than any broad intellectual study could give.

With heartfelt thanks, gratitude, love and devotion

Dear Sir,

I first read "A Search in Secret India" about 12 years ago and continued to study most of your books over a period of four years. I feel especially indebted to you for the clarity and benefit I found in "The Hidden Teaching Beyond Yoga" and "The Wisdom of the Overself".

I have continued study with the Bhagavad Geta, the Upanishads and the writings of Adi Sankaracharya with the translations and commentaries of Swami Chinmayananda of Bombay. Indeed. Again I feel that I am very much benefitted but I don't think that I would have heard the message of these books without earlier preparation through your writings.

One of my deep joys is that the study and reflection of the past few years that began with casual reading of "A Search in Secret India" has opened a new door to me to some understanding of the Scriptures and I have found a

happy reorientation in my personal values  
and goals.

I have always wanted to express  
my gratitude for your work in sharing  
your thoughts and knowledge, so that even  
I (i.e.: a housewife with three young children)  
had access to them.

I hope that this letter will reach  
you through your publishers.

With love and gratitude,

Mr. Paul Brunton  
In care of Rider & Company

Dear Sir:

After traversing many experiences, all of them absolutely necessary, and after I have had the opportunity to appreciate the variety of the aspects of the same Truth, I must recognize that by the intermedium of you I have received a special and well definid strength.

The "Inner Reality" may have represented to me, basically, the same meaning that for you it may have signify your own identification under Maharishi.

From that time my soul, unconstrained by time or space, has identified itself with yours, and through it, with Master's soul, in a prediction of that I am absolutely sure now will be a permanent state in relation to all the souls and to all the things.

Excuse me for taking a portion of your precious time, but I could not avoid myself the privilege to send to your Heart, this way, the homage of my immense gratitude and of my most reverent veneration.

To express all my mind and my heart want to transmit will be unnecessary at all. Because of this I dare to appeal to the Master of Silence to register only the following:

'What kind of utility do the words when we talk from hearth to hearth ? '

I beg you to receive my respectful compliments.

In case of Ringer & Company  
Troyon, New York

Dear Sir:

After traversing many expeditions,  
-erds of which I have had since  
then, I am now in the position to  
state the exact date of the same trip,  
beginning that day I have received  
a letter from New York dated July 1.

The "Inner Westway" may have been  
the same measure that for you it may have brought  
out indefiniteness under Mastership.

From that time on until now, much time  
has passed, it will be some time before  
I can get back to you with more  
details of what has been done.  
This is the reason why I have not  
been able to do so.

For the time being, I will  
not be able to do so until  
I have more information.  
Please excuse me for keeping you  
in suspense, but I would like  
to do so as soon as possible.

To express all my thanks and my best regards  
of which I hope I can do so if I can  
be necessary to do so.

What kind of work are you  
? What kind of  
work are you ?

I beg you to receive my very cordial regards.

Prayer to Maharishi

Master:

Upon You I place my devotion. With the tenderness  
You taught me to seek.

And this is what I trust.

Because, without knowing you as a human being, I  
have learned to love You.

And loving you I can anticipate that I will learn  
to love every soul, every thing.

Without any restrictions.

Your presence, living flame in my soul, is my  
sweet and gentle hope.

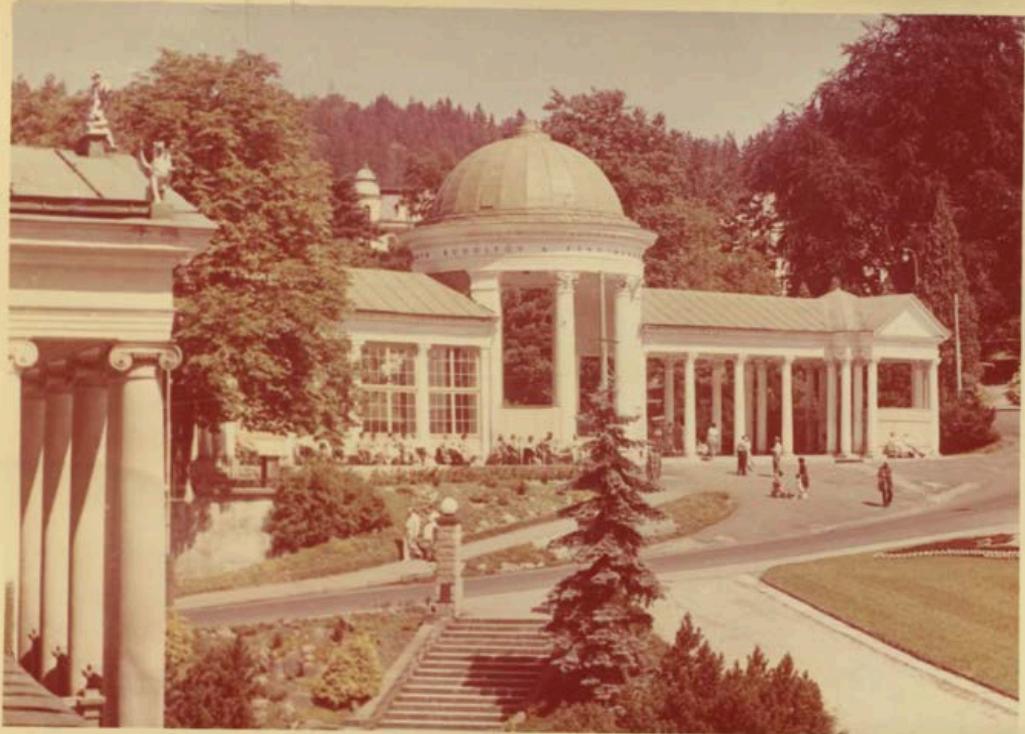

Bless me ! For I could, in all the things and  
in all the persons,  
See the Divine Mother.

As I see and feel Her. In You.

How loving You I can suppose that

Our dear Friend and Teacher,

in these days Táňa returned from her trip. From the publisher she received your address. Vasil P. sent her newspaper cutting of the year 1965 with the article dealing with your stay and connections in Tatoi. After her return, before meeting us, she showed the article to her friends. Now the news will spread, we are afraid. The conditions here are not favourable in this matter, as you know. We believe it is our duty to inform you.
