TALK 1958

finite. You can have all the good things but do not become attached
Jesus said "I have come to give you abundant life" Christ very de-
god, not enough clothes, not enough shelter, very little health.
poverty in all the countries that are newly independent---not enough

DR. JOHNSON'S
TALK
1/28

(4)

" I have conquered the world" The world means the economic order that organized itself without Christ. Do not treat your money as your own but use it for the world at large. Because asia and africa have so little there is danger of their accepting materialism.

Minimum requirements per person----1000 sq. ft of living space, 3000 calories, 16 yds for clothing. we must learn to share. we give economically so little; we should be ashamed of the small percentage of our national income we give to help the people of the world. our stored foods rots in our warehouses as stocks pile up. most money used for arms, not for economic help-----most of it to help our own manufacturers. must change our insulting behavior toward the rest of the world.

Science---bombs, h and a and sputniks show bankruptcy of our intelligence. water, water everywhere and not a drop to drink. thats what happened to our intelligence. great, devastating wars fought between catholics and protestants-----must stop fighting and turn intelligence to something else.-----science. science revered in east europe because religion did not satisfy. also west----we look to science as to God. could be used for good, but mostly now for destructive purposes. Science has nothing to do with values-----that is philosophy's role. where science stops, phil. ~~xxxxxx~~ enters and tells us the meaning. religion next and shows us techniques to live by. When speaking to people of other religions from our own do not refer to religious values which differ, but to spiritual values which all understand.

CHRIST---the highest ideal of mankind-----not in the sectarian meaning. Through Christ can give the healing touch---uniting world into one. we must make the world come to blossom in the name of Christ

" I have conquered the world" The world means the economic order that organized itself without Christ. Do not treat your money as your own but use it for the world at large. Because Asia and Africa have so little there is danger of their accepting materialism.

Minimum requirements per person---1000 sq. ft of living space, 3000 calories, 10 yds for clothing. we must learn to share. we give economically as little as possible should be ashamed of the small percentage of our national income we give to help the people of the world. our stored foodstuffs in our warehouses as stocks pile up. most money used for arms, not for economic help---most of it to help our manufacturers. must change our insulting behavior toward the rest of the world.

Science---bombs, h and a and Sputniks show bankruptcy of our intelligence. water, water everywhere and not a drop to drink. that's what happened to our intelligence. Great devastation was fought between Catholics and Protestants---must stop fighting and turn intelligence to something else.---science. science revered in east Europe because religion did not satisfy. also west---we look to science as to God. Science has used for good, but mostly now for destructive purposes. Science has nothing to do with values---that is philosophy's role. where science stops, phil. begins enters and tells us the meaning. religion next and shows us techniques to live by. When speaking to people of other religions from our own do not refer to religious values which differ, but the spirit-ual values which all understand.

CHRIST---the highest ideal of mankind---not in the sectarian meaning. Thought Christ can give the healing touch---uniting world into one. we must make the world come to blossom in the name of Christ

Problems: political, economic, social, spiritual. Koinonia is a corrective to ICA because the ICA wants to give material but not spiritual values. before we can help others we must help ourselves. we cannot go out and help the world unless we conquer ourselves. establish our identity. Are you master of yourself?

In the course of history, over long periods there sometimes comes, once to a nation, the call of destiny. America has been so called at this time as leader of the world. England was once called, once Greece, once Rome, etc but only once. Shall we accept the challenge or throw it down in the dust? We want to win the world to Christ (not in the narrow sense) Leaders remain behind, serves and loves with humility; keeps in background and to serve well is to know and understand the people first. understanding is a very difficult thing. Stop vicious tit for tat policy of retaliation. "Lord, come what may, we shall stand for love". Christ is ideal for all mankind. From the beginning of the world God gave the Logos to the world. the entire world is groaning for the highest ideal of God. reaching for fullest stature, highest ideal. We are living in a world of dichotomy----no man is an island unto himself. we depend upon one another in economy---in everything. the idea of independence must be given up: spiritually, mentally, economically, all must be healthy.

.....

Problems: political, economic, social, spiritual. Romania is a cor-
relative to ICA because the ICA wants to give material but not spiritual
values. before we can help others we must help ourselves. we cannot
go out and help the world unless we conquer ourselves. establish our

identity. Are you master of yourself?

In the course of history, over long periods there sometimes comes, once
to a nation, the call of destiny. America has been so called at this
time savior of the world. England was once called, once Greece, once
Rome, etc but only once. Shall we accept the challenge or throw it down

in the dust? We want to win the world to Christ (not in the narrow sense)
Leaders remain behind, serves and loves with humility; keeps in back-

ground and to serve well is to know and understand the people first.

understanding is a very difficult thing. Stop violence for sat

policy of retaliation. "Lord, come what may, we shall stand for love."

Christ is ideal for all mankind. From the beginning of the world God

gave the logos to the world. the entire world is growing for the

highest ideal of God. reaching for fullest stature, highest ideal.

We are living in a world of dichotomy---no man is an island unto him

self. we depend upon one another in economy---in everything. the idea

of independence must be given up: spiritually, mentally, economically,

all must be healthy.

Dr. Jordan's class at Koinonia Foundation (for training)
two approaches---go to the area of the world to find out conditions
problems. catalog problems in those areas. prepare a list of problems
of different areas, south asia, middle east, near, west europe, africa
central american, south america. survey of conditions prevailing
throughout the world. that is not enough however. And problem to

find out the problems of different countries and compare to problems common to all mankind.

3. catalog these problems, show which should have priority, those which come next and those which can wait. make a list in order of their importance.

SECOND what are the solutions. have we any social, moral, psychological, political answers? there can be expedient solutions of different type. we want some that are based upon eternal values. how can the solution be implimented: some would say "be good and dedicated and things will solve themselves". that is no solution. we must show in what ~~practical~~ practical way we must go. we must solve them step by step----- step #1, ~~step~~ #2, step #3 etc.

3rd. solution that fit facts, then take action. ask does time permit it? does human capacity permit it? Problems can be catagorized into many phases ---political, socail, cultural, etc. etc..

NATIONALISM the word is a coinage of the 19th century. Nationalism is the aspiration, the desire of a large group of people to become a nation. the nation is a community of people based upon certain common interests. we have a certain amount of territory which belongs to us; common language; common historical tradition. religion bind people together although sometimes it divides. never speak of religious values to people of different faith, speak of spiritual values. all agree on spiritual values. dignity of man, of human labor. were exploited by a foreign nation. during the english occupation we worked together so in that way was good. the common desire to be economically free, politically free; and the aspiration to be a nation is nationalism. belonging to a nation is nationality. desire to do something great, aspiration, is nationalism. in the course of becoming independent some become aggressive---Chauvinism, Jingoism---victorian era. world today is full of nationalism. this sometimes produces imbalance. we go through a revolution---quick change. we often forget our great past in our desire to become a great country. sometimes new nations become aggressive and want to conquer their neighbors. Many countries think---what is in this country is

find out the problems of different countries and compare to problems common to all mankind.

3. catalog these problems, show which should have priority, those which come next and those which can wait. make a list in order of their importance.

step 1, step 2, step 3 etc.

3rd. solution that fit facts, then take action. ask does time permit it? does human capacity permit it? problems can be categorized into many phases—political, social, cultural, etc. etc.

NATIONALISM the word is a coinage of the 19th century. Nationalism is the aspira-

-tion, the desire of a large group of people to become a nation. the nation is a com-

munity of people based upon certain common interests. we have a certain amount of

territory which belongs to us; common language; common historical tradition. religion

and people together although sometimes it divides. never speak of religious values

to people of different faith, speak of spiritual values. all agree on spiritual values.

dignity of man, of human labor. were exploited by a foreign nation. during the

english occupation we worked together so in that way was good. the common desire to

be economically free, politically free; and the aspiration to be a nation is nationalism.

belonging to a nation is nationality. desire to do something great, aspiration, is

nationalism. in the course of becoming independent some become aggressive—Germans,

lingons—victorian era. world today is full of nationalism. this sometimes produces

imbalance. we go through a revolution—quick change. we often forget our great past

in our desire to become a great country. sometimes new nations become aggressive and

want to conquer their neighbors. Many countries think—what is in this country is

good---what is outside is bad. Nationalism is good when people get a chance to determine their destiny but to conquer other nations is wrong. Nationalism under Gandhi---taught to love the english and when he did wrong dislike the deed, not the man. this is nationalism which is mature---i would rather suffer than make them suffer. people in the east say of western christians "When you came to our country you had the bible and we had the land---now we have the bible and you have the land".

Colonialism and imperialism-----colonial powers become the most important citizens and keep the natives as 2nd class citizens, often as servants---exploit the economic resources of the land for their own benefit. organize the government so that they are the lords of the country and people are your servants---have the privelege to use your coal and oil, etc. and the people living here will be your laborers---the privelege of settling in that part of the country which has beautiful climate, scenery, etc reserving the best of the land to themselves segregation.

ALGERIA French people here do not want to be displaced and the French at home are afraid they will have all these refugees and their pockets will be touched. Colonialist---conquest of foreign lands and taking those lands as dependencies, most white race does this although japanese occupied other countries and used for their best interests---always take best land in the country---law of jungle. reliance upon physical instead of spiritual principals. freedom is the birthright of man---dignity of man. man is the temple of God. england built railroads but not for good of indians but for quick transport of soldiers to keep the country under british domination. incidentally however it helped indians. sometimes you build for one thing and something else happens.....i can share what i have with you and if you want it it becomes yours, if imposed then motive cannot be right

Good---what is outside is bad. Nationalism is good when people get a chance to determine their destiny but to conquer other nations is wrong. Nationalism under Gandhi---taught to love the English and when he did wrong dislike the deed, not the man. This is nationalism which is mature---I would rather suffer than make them suffer. People in the east say of western Christians "When you came to our country you had the bible and we had the land---now we have the bible and you have the land".

Colonialism and imperialism---colonial powers become the most important citizens and keep the natives as 2nd class citizens, often as servants---exploit the economic resources of the land for their own benefit. Organize the government so that they are the lords of the country and people are your servants---have the privilege to use your coal and oil, etc. and the people living here will be your laborers---the privilege of settling in that part of the country which has beautiful climate, scenery, etc reserving the best of the land for themselves.

ALGERIA French people here do not want to be displaced and the French at home are afraid they will have all these refugees and their pockets will be touched. Colonialist---conquest of foreign lands and taking those lands as dependencies, most white race does this although Japanese occupied other countries and used for their best interests---always take best land in the country---law of jungle. Freedom is the birthright of man---dignity of man. Man is the temple of God. England built railways but not for good of Indians but for quick transport of soldiers to keep the country under British domination. Incidentally however it helped Indians. Sometimes you build for one thing and something else happens..... I can share what I have with you and if you want it it becomes yours, if imposed then motive cannot be right

IMPERIALISM: you are running another country for your own good. you train men to keep the natives down. train how to treat the local people. IMPERIALISM at shanghai---whatever white men live that territory belongs to them---to be in the country but not bound by its laws is attitude of imperialism. 2nd. general attitude as shown by club notices "Chinese and dogs are not allowed" 3rd doctrine of white man's supremacy as "Guard and grant our native seas" man must go through certain steps in evolution. cannot change local customs too rapidly nor too drastically nor make all laws apply to all people.

RACISM

Organization democracy. first settlers^r in our country were courageous and adventurous spirits. that was more important to this country than their attitude regarding religion since actually they were not tolerant, wanted only freedom of worship for themselves and soon set about persecuting those who differed from them. americans still show the adventurous spirit.

DEMOCRACY one of the ways of organizing government. in england very good thing--- party of the opposition which studies and brings into open the flaws and defects of any proposed laws. bad feature of democracy it is safe for the rulers to absolve themselves from blame by putting it on someone else or some particular group.. how are we going to have a democracy and have "rightness" at the same time. Majority by no means always right.

COMMUNISM: teach all people not only equal but must enjoy all the priveleges. that governments are not needed. they hope to come to that step but must first go throughsocialistic state. when they arrive at the goal of communism there will be no need for a government. do not call themselves communists now but socialists. U.N. bill of rights our country and Yemmen are only governments who have not yet signed because we have segregation and they have slavery

IMPERIALISM: You are running another country for your own good. You train men to keep the natives down. Train how to treat the local people.
